Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	N/A		

If a Watercourse was Impacted, Describe Fully.*

N/A

Describe Cause of Problem and Remedial Action Taken.*

A vent line was located west of the East Millman Tank Battery, which periodically vented gas and small amounts oil into an earthen pit. Venting would occur due to vessel malfunction or emergencies. The pit contained free oil on top of rain water. The vent line has been connected to a holding tank to capture any fluids during periodic venting in the future.

Describe Area Affected and Cleanup Action Taken.*

The earthen pit measured approximately 25' x 25'. As per LOV No. 02-09-132 the rain water and free oil have been removed from the pit. A work plan will be completed to address the impacted soil.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Stephens & Johnson Operating
East Millman Unit #150 (Tank Battery)
Section 15, T19S, R28E
Eddy County, New Mexico
LOV #02-09-132

Mike,

Tetra Tech will be onsite May 5, 2010 at the above reference site for the installation of boreholes. As discussed in the work plan dated March 15, 2010, Tetra Tech will define the extents of the soil impact at the earthen vent pit. Once completed, a work plan will be submitted for the site remediation. Please call me if you have any questions, thanks
