**Cc:** Pat Ellis; Joshua Russo  
**Subject:** FW: COG - Drilling Notifications - East High Lonesome Tank Battery

Mike and Terry,

The rig is available to drill the East High Lonesome Tank Battery tomorrow (10-7-10). We will wait to drill the Southwest Central Tank Battery until the access issues are resolved. Thanks

Ike Tavaréz  
Tetra Tech

**Subject:** FW: COG - Drilling Notifications

Mike and Terry,

Tetra Tech has cancel the drilling until next week. The drilling rig is broken down and will not be available to drill this week. We will notify you when the drilling is setup again. Please call me if you have any questions, thanks

Tetra Tech

Mike and Terry,

Tetra Tech will be onsite to install boreholes at the High Lonesome Tank Battery on Wednesday 9-29-10. The spill was contained inside the facility firewalls and the initial assessment (hand augers) did not vertically define the chloride impact. The boreholes will be installed to define these areas. Once completed, Tetra Tech will move to the Southwest Central Tank Battery spill to install boreholes on Thursday 9-30-10. We will notify BLM (Terry Gregston) on any delays we may have on the projects. Please call me if you have any questions, thanks
