NMOCD ARTESIA

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Reference: Lime Rock Resources \* Condor 8 Fed 1H \* 30-015-35829 \* F-8-18s-27e \* Eddy County, New Mexico

Mr. Barrett,

NMOCD is in receipt of an Initial Report Form C-141 reporting a 47 bbl oil release w/10 bbls recovered at or near the above referenced well site. The reported date of release was 3/11/2011.

NMOCD will require samples to be obtained in the release area to delineate contaminants as a result of the release. A proposal for remediation is to then be submitted to NMOCD District 2 Office based on the delineation results and site ranking criteria.

If you have any questions or concerns, please contact me.
