Describe Area Affected and Cleanup Action Taken.*

Began work on location / all fluids on location
will excavate contaminated soil test / re-caliche file find 141

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCN rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCN marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCN acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
