Release date: 1/23/2011 \* Amended Remediation Proposal \* OCD Tracking: **2RP-706**

Greetings,

The amended remediation proposal dated April 12, 2011, prepared and submitted to OCD by Talon, LPE on behalf of Devon Energy is approved. OCD would request 48 hour notification prior to commencement of operations, however, in the event Talon is ready to mobilize to the site, please proceed. Do provide OCD 48 hours notice prior to obtaining samples where the analyses will be submitted to OCD.

Be advised this approval does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, this approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, please contact me.
