Re: Nearburg Producing Company  
Request for Administrative Approval, Unorthodox Well Location  
South Humble City-Strawn Pool (33500)

Honey 13 Well No. 1  
API No. 30-025-40083  
280' FNL and 2450' FEL (B) (Surface)  
723' FNL and 2149' FEL (B) (Bottom hole)  
Section 13, T17S, R37E  
Lea County, New Mexico

Dear Mr. Sanchez:

On behalf of Nearburg Producing Company ("Nearburg") and pursuant to Division Rule 19.15.15.13 and the applicable rules governing oil well locations for the South Humble City-Strawn Pool (33500; Order No. R-6913, as amended), we request administrative approval for an unorthodox well location for the Honey 13 Well No. 1 at the surface and bottom-hole locations reflected above.

This well will be drilled to a depth sufficient to test the Strawn formation within the boundaries of the South Humble City-Strawn Oil Pool. The rules for the pool currently provide that wells shall be located within 150 feet of the center of a governmental quarter-quarter section or lot, with 80-acre units dedicated to the wells. The C-101 along with the C-102 plat showing the W/2 NE/4 spacing unit and the proposed unorthodox location for the Honey 13 Well No. 1 are attached as Exhibit A.

Nearburg seeks an exception from the applicable well location rules for the well for the following reasons: (1) The surface is utilized as irrigated crop land and at a standard location under the pool rules, the well would interfere with a pivot-point

Mr. Daniel Sanchez, Acting Director  
March 16, 2011  
Page 2

irrigation system. The irrigation system and proposed location are demonstrated on the enclosed aerial photo (Exhibit "B"); (2) The well will be drilled from a pre-existing rig pad that was constructed but not utilized. The use of the pre-existing pad will avoid the need to disturb additional surface; (3) Based on development in the adjoining units and on Nearburg's interpretation of geologic and geophysical data, the well would be optimally situated to encounter and produce from an isolated algal mound typical of Strawn formation reservoirs in the area. (See attached affidavit, Exhibit "C").

There is presently no Strawn formation well or dedicated spacing unit in the offsetting 80-acre spacing unit toward which the proposed location encroaches in the E/2 NW/4 of Section 13 T17S R37E. Nearburg owns 69.79180% of the leasehold working interest in the adjoining spacing unit, Chesapeake owns approximately 2.08125% and the remaining interests are unleased. Nearburg is providing notification to and obtaining waivers of objections from the other working interest owner and the owners of the unleased mineral interests. (See notice list, Exhibit "D").

The Division's Administrative Application Checklist is enclosed.

Thank you for your consideration of this request. Should more information be required, please do not hesitate to contact me.

Very truly yours,

MONTGOMERY & ANDREWS, P. A.

COUNTY OF MIDLAND    )

**AFFIDAVIT**

1. My name is Bill Elton. I am a geologist for Nearburg Producing Company in the company's Midland, Texas office. I am familiar with the subject matter of this Application and am otherwise competent to testify to the matters set forth herein.
2. Nearburg Producing Company seeks approval of an unorthodox well location as follows:  
Honey 13 Well No. 1  
API No. 30-025-40083  
280' FNL and 2450' FEL (B) (Surface)  
723' FNL and 2149' FEL (B) (Bottom hole)  
Section 13 , T17S, R37E Lea County, New Mexico
3. This well will be drilled to the Strawn formation. The applicable pool rules for the South Humble City-Strawn pool in this area provide that wells must be located within 150 feet of the center of a quarter-quarter section.
4. I have examined and geologic and geophysical data of the Strawn formation in the NE/4 of Section 13. The Strawn formation production in the area is typically from isolated algal mounds that are of limited areal extent. Based on my interpretation of the available data, I have concluded that a well drilled to the proposed bottom hole location will be better situated to more completely and efficiently recover Strawn formation reserves than would be likely if the well were drilled at a standard location. Further, because of the limited size of the isolated Strawn formation mound being targeted, the correlative rights of owners in the adjacent section are not likely to be impaired.

Bill Elton, GEOLOGIST

SUBSCRIBED AND SWORN before me on this 15<sup>th</sup> day of March, 2011.

Section 13, T17S, R37E  
Lea County, New Mexico**

Dear Mr. Wimmler:

Pursuant to New Mexico Oil Conservation Division (NMOCD) Rule 19.15.15.13 D, you are hereby notified that on March 16, 2011, Nearburg Producing Company made application to the NMOCD for administrative approval for an unorthodox well location for its Honey 13 Well No. 1 at the surface and bottom-hole locations reflected above for a well to be drilled to the Strawn formation, South Humble City-Strawn Pool, in Lea County, New Mexico. A copy of the application is enclosed.

As the owner of an interest that may be affected, you have the right to object to the application. To do so, you must file a written protest with the NMOCD within twenty days. Failure to do so will prevent you from challenging the matter at a later time. A letter of protest may be sent to the NMOCD at 1220 South St. Francis Drive, Santa Fe, New Mexico 87505.

Dear Ms. Wilson:

Pursuant to New Mexico Oil Conservation Division (NMOCD) Rule 19.15.15.13 D, you are hereby notified that on March 16, 2011, Nearburg Producing Company made application to the NMOCD for administrative approval for an unorthodox well location for its Honey 13 Well No. 1 at the surface and bottom-hole locations reflected above for a well to be drilled to the Strawn formation, South Humble City-Strawn Pool, in Lea County, New Mexico. A copy of the application is enclosed.

As the owner of an interest that may be affected, you have the right to object to the application. To do so, you must file a written protest with the NMOCD within twenty days. Failure to do so will prevent you from challenging the matter at a later time. A letter of protest may be sent to the NMOCD at 1220 South St. Francis Drive, Santa Fe, New Mexico 87505.

Section 13, T17S, R37E  
Lea County, New Mexico

Dear Mr. Brooks:

Nearburg Producing Company has been able to obtain consents from the working interest owner and from each of the unleased mineral interest owners in the 80 acres immediately adjoining the unit for the above-referenced unorthodox location. Copies of these consents are enclosed. Please note that on the list of affected persons receiving notice, the interest shown for the Estate of John Elliott Hayes is now owned by Ann Alycin Hayes.

This will allow the application to proceed to approval under the provisions of rule 19.15.15.13 D.

Very truly yours,

MONTGOMERY & ANDREWS, P. A.

Dear Mr. Brewer:

Pursuant to New Mexico Oil Conservation Division (NMOCD) Rule 19.15.15.13 D, you are hereby notified that on March 16, 2011, Nearburg Producing Company made application to the NMOCD for administrative approval for an unorthodox well location for its Honey 13 Well No. 1 at the surface and bottom-hole locations reflected above for a well to be drilled to the Strawn formation, South Humble City-Strawn Pool, in Lea County, New Mexico. A copy of the application is enclosed.

As the owner of an interest that may be affected, you have the right to object to the application. To do so, you must file a written protest with the NMOCD within twenty days. Failure to do so will prevent you from challenging the matter at a later time. A letter of protest may be sent to the NMOCD at 1220 South St. Francis Drive, Santa Fe, New Mexico 87505.
