Dusty,

This battery is either at, associated with or close to the number 23 well (API 30-015-33384) correct? I need an API number for data entry.

Mike and Terry, here is an electronic copy of the Initial C-141 for the above referenced Reportable spill for Oxy that occurred on 4/6/2011. I will also be mailing a hard copy to you both. BBC International has been directed to put this site on the list to delineate, and should be getting to it soon. They are also being directed to contact you both 48 hrs prior to sampling this site to give you the opportunity to witness, if you so desire. They will let you know when they get it scheduled.

Thanks,

Dusty L. Wilson

Sundance Federal CTB Recordable
Spill

Gentlemen, this email is to let you both know of a reportable spill that Oxy had at the above listed battery site last night. The spill information is as follows:

Sundance Federal Central Tank Battery
SEC 4 T24S R31E SW/NW Eddy County

THE SITE IS 2 MILES SOUTH OF 128 ON PURE GOLD ROAD WE RELEASED 400 BBLS OF PRODUCE WATER WHICH WAS CONTAINED WITHIN THE FIREWALLS OF THE BATTERY, AND LUCKILY WE HAD A VAC TRUCK IN CLOSE PROXIMITY TO THE SITE AND RECOVERED MOST ALL OF THE FLUID.
THE LEAK WAS DUE TO THE TRANSFER PUMP SHAFT AT THIS LOCATION BROKE IN TWO CAUSING THE TANKS TO FILL AND RUN OVER.

A C-141 WILL BE FOLLOWING THIS EMAIL, AND WE WILL BE GETTING WITH YOU BOTH AS WE MOVE FORWARD ON IDENTIFICATION AND REMEDIATION AT THIS SITE.

LET ME KNOW IF YOU HAVE ANY QUESTIONS REGARDING THIS MATTER.

Thanks,

Dusty L. Wilson
