1980 FSL & FEL of J-23, 10-S, 33-E  
Midwest State "A" No. 1 Lease  
660 FNL, 1980 FWL of C-23, 10-S, 33-E  
Lea County, New Mexico

Dear Mr. Nutter:

Please find enclosed a copy of a letter forwarded by Mr. Ray D. Graham from the office of Guyton B. Hays, Commissioner of Public Lands in Santa Fe regarding our commingling request on the above captioned wells. According to the contents of attached letter, we are not required to have a commingling permit due to identical royalty beneficiaries involved in both leases. Again referring to the attached letter, we are sending same to your office for further action.

To my knowledge, my company has not received any further information regarding this and we would appreciate hearing from your office as soon as possible.

If your reply regarding this application procedure has already been sent, please disregard this letter.

Very truly yours,

APACHE CORPORATION

Attention: Mr. Ray H. Reeves, Dist Production Foreman, Oil & Gas Division

Gentlemen:

Re: Delaware-Apache Corporation Midwest State Well No. 1 and Midwest State "A"  
Well No. 1, Section 23, 10S, 33E, Inbe Penn Field, Lea County, New Mexico

Your letter to Mr. A. L. Porter, Jr., New Mexico Oil Conservation Commission, under date of July 27, 1967, has been forwarded to this office for approval before the OCC reviews the application.

We have reviewed your application to commingle the production from the captioned wells and find that both wells are located on the same State of New Mexico Oil and Gas Lease: No. E-6387, and the wells are producing from the same formation. Authority to commingle is given you in the State of New Mexico Oil and Gas Lease.

Since jurisdiction in this matter vests in the Oil Conservation Commission, your application is being handed to Mr. Dan Nutter of that office in Santa Fe, for whatever action is required.

We are enclosing a copy of our rules and regulations and suggest that you familiarize yourself with Rules 52 and 53, which explain the commingling procedure as required by the State Land Office. Filing fees are given on the last page of the handbook.

Very truly yours,  
GUYTON B. HAYS  
Commissioner of Public Lands

NEW MEXICO OIL CONSERVATION COMMISSION  
Post Office Box 1980  
Hobbs, New Mexico

Attention: Mr. Joe Ramey

Dear Mr. Ramey:

Enclosed is the application to commingle our Midwest State "A" Well No. 1 and Midwest State Well No. 1 in the Inbe Penn Field, Lea County, New Mexico. I have sent copies of this application along with all pertinent details to the State Land Office in Santa Fe as you advised. Sorry to have failed to have these forms in correct order the first time they were routed through your office but I had no commingling book to use as a guide line and being our first application to commingle in New Mexico we were subject to error in assembling all of our information. If the enclosed schematic, which is required for this type of request, is not in correct order, please advise.

Trusting this meets with your satisfaction.

Very truly yours,

APACHE CORPORATION
