Re: Request to Surface Commingle the  
Record Well No. 5 and Record Well No. 1  
Both on the Record Lease (Same Ownership)  
Sec. 26, T19S, R35E  
Lea County, New Mexico

Dear Mr. LeMay:

Amtex Energy, Inc. hereby requests Oil Conservation Division approval to commingle the production from the 2 wells listed below, which are on the same lease, into the same production tank battery. Pertinent well information for your consideration is as follows:

Existing	<u>Record Well No. 1</u>
Producing Well:	K, Sec. 26, T19S, R35E Lea County, New Mexico Pool: Pearl - San Andres Oil: Sweet - 37° API Gravity Completion Perforations: 5277' - 5289'

Well Requested to Commingle:	<u>Record Well No. 5 (New Well)</u> E, Sec. 26, T19S, R35E Lea County, New Mexico Pool: Undesignated Pool to be Requested: South Pearl-Bone Spring Oil: Sweet - 38° API Gravity Completion Perforations: 10,600' - 10,650'
---------------------------------	--

The production battery is on the same location with the Record Well No. 1. Amtex request to lay a flowline from the Record Well No. 5 to the production battery for the Record Well No. 1 to surface commingle the production from these two wells. Attached is a plat showing the wells and facility location. Additionally, the Record lease ownership is common under the entire lease with royalty, overriding royalty and working interest owners being the same in both wells.

If you have any questions please call me at 915/686-0847.

Very truly yours,

*William J. Savage*
