Re: Request for Unorthodox
Location for Injection
Well I-13, Red Mountain
Field, McKinley Co., N.M.

Mr. A. L. Porter, Jr., Sec.-Dir.
N. M. Oil Conservation Commission
P. O. Box 871
Santa Fe, New Mexico

Dear Sir:

Pursuant to the provisions of Paragraph 2 of Order # R-1533, Chaco Oil Company hereby requests permission to drill Injection Well No. I-13 at an unorthodox location in the Red Mountain Field, McKinley County, New Mexico.

The Proposed Location for Well # I-13 is 452 feet from the North Line and 2740 feet from the east line of Section 29, Township 20 North, Range 9 West, N.M.P.M., McKinley County, New Mexico.

This injection well is necessitated by the fact that well #I-4, which was intended to be an injection well, proved to be oil-productive, and well #I-13 is intended to extend the producing area of the pool and to replace well #I-4 in the peripheral pattern.

Thank you.

Yours truly,

Henry S. Birdseye

Albuquerque, New Mexico

Attention: Mr. Henry S. Birdseye

Gentlemen:

Reference is made to your letter of November 1, 1961, requesting permission to drill injection well I-13 at an unorthodox location in the Red Mountain Field, McKinley County, New Mexico.

Inasmuch as you propose to use I-13 as an injection well in lieu of I-4, which will be retained as a producing well, what will be the designation of I-4 as a producer? Please provide this office with (1) a plat showing location of both wells and (2) latest production tests of well No. I-4.

Very truly yours,

J. E. KAPTEINA
Engineer

Box 871
Santa Fe, New Mexico

Dear Mr. Kapteina:

Thank you for your response of 7 November, 1961, regarding my request for an unorthodox location for Injection Well I-13, in the Red Mountain Field, McKinley County, New Mexico.

Well #I-4 will be given a new designation as a producing well, probably as well #5, and the proper forms will be filed with the Commission.

The latest production test of Well # I-4 was made on 1 October, 1961. The well produced 27 barrels of oil and 10 barrels of water in a 24-hour period.

A plat showing the location of all wells in the field is enclosed.

We will be happy to cooperate, should you have any further questions.

Cordially,
CHACO OIL COMPANY

Henry S. Birdseye
