Dear Mr. Burns:

Your letter of January 7, 1966 stating that you were attaching a copy of your application to the Oil Conservation Commission for the approval of the casing and tubing program on your West "B" #30 is hereby acknowledged. The application was not attached. The diagrammatic sketch of the well is attached but is not complete. Please read Rule 701.

I cannot give my approval until the application and a completed diagrammatic sketch are received.

Attention: Mr. Fred Burns

Gentlemen:

This office requests the following information concerning the casing program for your West "B" Well No. 30 before said casing program can be approved:

Amount of surface casing to be used,  
Volume of cement to be used on surface casing,  
Approximate or proposed setting depth of  
the 4 1/2-inch casing and volume of cement  
necessary to fill behind casing to 1900 feet.  
Hole sizes.

Future requests of this type should contain all information outlined in Rule 701-B.

Very truly yours,

J. E. KAPTEINA  
Engineer

Dear Mr. Porter:

Reference is made to the application of Sinclair Oil & Gas Company which seeks approval for the casing and tubing program of water injection well West "B" #30 in Sec. 9, T. 17 S., R. 31 E., which was approved by Commission Order R-2268-A.

This office offers no objection to the granting of the application provided the well is cased and cemented as set forth on diagrammatic sketch and further provided that packer and tubing setting is below the known top of the cement surrounding the 4½" casing.
