Dear Mr. Standard:

Permission is granted to increase the surface injection pressure to 1300 psig on your Campflood Well No. 93 in Unit C of Section 27, Township 18 South, Range 28 East, Eddy County, New Mexico.

This request is granted in accordance with the provisions of WFX-457 and the subsequent step-rate test which indicates injection can be increased to this pressure without fracturing the confining formations.

Yours very truly,

JOE D. RAMEY
