Re: Reclassification of Maljamar SWD Well No. 1

Dear Mr. Sanders:

Reference is made to your request to reclassify the Maljamar SWD Well No. 1 located 660 feet from the North line and 1980 feet from the East line (Unit B) of Section 26, Township 17 South, Range 33 East, NMPM, Lea County, New Mexico, from a salt water disposal well to an injection well within the Maljamar Philmex Waterflood Project, Maljamar Grayburg San Andres Pool, (previously approved by Division Order No. R-3668, as amended). It is our understanding that the subject well was originally permitted for use as a salt water disposal well by Division Order No. SWD-126 dated June 28, 1972. It is further our understanding that the physical characteristics of the subject well, including the perforated interval will not change as a result of reclassification.

The Maljamar SWD Well NO. 1, as described above, is hereby reclassified as an injection well within the Maljamar Philmex Waterflood Project and redesignated the Philmex Well No. 9.

Sincerely,

A handwritten signature in dark ink, appearing to read "William J. LeMay".

William J. LeMay
Director
