Re: Richardson Fee SWD No. 2  
Unit K, Section 5, T-14S, R-36E,  
Lea County, New Mexico

Dear Mr. Parchman:

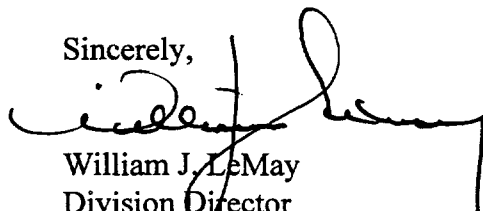

In an effort to update our records concerning the Richardson Fee SWD No. 2, the Division is requesting that you supply the following described information:

A description and analysis of the fluid being injected into the commercially operated Richardson Fee SWD Well No. 2. This includes an analysis of each and every water source and a description of its point of origin (i.e. San Andres produced water from the Grayburg-Jackson Pool). In addition, this includes water delivered to the well by pipeline and truck.

Division and Federal UIC Rules and Regulations require that all operators of disposal wells provide source water analysis at reasonable frequency. Our information indicates that the Richardson Fee SWD Well No. 2 was permitted by Harvey E. Yates Company in July, 1983, and that the well was proposed, at that time, to be utilized to dispose of produced water solely from the Devonian formation.

Please provide the information requested within 60-days from the date of this letter. If you need additional time, or you wish to discuss the matter further, please contact Mr. David Catanach at (505) 827-8184.

Sincerely,

William J. LeMay  
Division Director
