Re: Recementing Required by SWD-299  
Dickinson Cattle Co. 33-2 (1-N)  
Section 33, T14S, R38E

Dear Mr. Catanach:

In regard to the above described requirement, we would like to request an extension of six months on the recementing of this well since it is presently taking water on a vacuum.

If you need any additional information, please do not hesitate to contact this office (915) 362-6302.

Yours very truly,

READING & BATES PETROLEUM CO.

Re: Administrative Order SWD-299

Dear Sir:

Reference is made to your request dated May 9, 1987 for a six-month extension to the well cementing requirement contained in Division Order SWD-299. This order authorized the use of the Dickenson Cattle Co. 33 Well No. 2 as a salt water disposal well provided that the Dickinson Cattle Co. 33 Well No. 1 be cemented across the San Andres zone within six months after commencement of injection operations. It is our understanding that Well No. 2 is currently taking water on a vacuum, and as such presents no immediate danger of migration through the Well No. 1 wellbore.

You are therefore granted a six-month extension to the cementing requirements contained in Division Order SWD-299 provided that the Division shall be notified immediately should Well No. 2 cease taking water on a vacuum prior to the expiration of said six-month period.

Sincerely,

A handwritten signature in cursive script, appearing to read "William J. Lemay".
