**Re: Administrative Order PC-218
Grizzell Lease
Sec. 8, T22S-R37E
Lea County, New Mexico**

Apache Corporation proposes to amend the referenced Surface Commingling Permit to include the Eunice; San Andres, Southwest pool and delete the Fusselman pool.

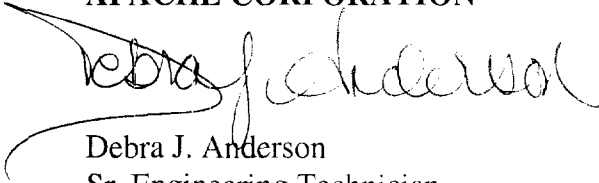

To support this request we have attached the following:

- 1) Tabulation of wells indicating the current producing pool, average daily production rates and API gravity of each pool.
- 2) The expected sum of commingled production is 60 BOPD and expected gravity is 35.0. The value of commingled production will not be decreased by adding the referenced pool. Allocation of production from each pool will be based on monthly well tests.
- 3) Production Facilities diagram
- 4) Plat of Grizzell lease
- 5) Copy of letter sent to Royalty Interest Owners and list of same.

If you have any questions regarding this application, please contact me at 713-296-6338. Thank you.

Sincerely,

APACHE CORPORATION

**Re: Administrative Order PC-218
Grizzell Lease
Sec. 8, T22S-R37E
Lea County, New Mexico**

Attached please find an application to amend the referenced Surface Commingling Permit, that Apache Corporation has filed with the New Mexico Oil Conservation Division. This amendment is to include the Eunice; San Andres, Southwest Pool and delete the Fussellman Pool. Production from the Penrose Skelly; Grayburg, Paddock, Blinebry O&G and Drinkard pools is currently being commingled at the Grizzell surface facilities. If you have an objection to this application, you must notify the OCD in writing within 20 days from the date of this letter.

Sincerely,

APACHE CORPORATION

**Re: Administrative Order PC-218 (June 1, 1984 under Shell Oil Company)
Grizzell Lease
Section 8, Township 22 South, Range 37 East
Lea County, New Mexico**

Apache Corporation would like to request temporary verbal permission to surface commingle the existing production at our Grizzell lease with the production from our Grizzell # 10 well, currently being recompleted in the Eunice; San Andres, Southwest (24180) pool. Our records indicate the royalty ownership is the same for each pool. The expected gravity is 37.98 and value of commingled production will not be decreased by adding the referenced pool.

I am working on the necessary information to amend the referenced commingling permit and anticipate submitting same to you next week.

If you have any questions, please contact me at 713-296-6338. Your assistance in this matter is greatly appreciated. Thank you.

Sincerely,

APACHE CORPORATION
