Unit Letter G, Indian Basin-Upper Penn/Southeast Loafer Draw-Morrow Gas Pools
Eddy County, New Mexico

Dear Ms. Haynie:

We are in receipt of your application of November 22, 2002. Your application requests our approval to surface commingle the oil, gas and water production from the New Mexico "DF" State Com Wells #1, #3 and #4 with the Federal 33 Com Wells # 1, #2, and the new well #3 which is currently being drilled.

It is our understanding the production from the New Mexico DF State Wells and the Federal 33 Com Wells will be separately and accurately measured prior to commingling.

Since it appears that all the New Mexico Oil Conservation Division's rules and regulations have been complied with, and there will be no loss of revenue to the State of New Mexico as a result of your proposed operation, your request is hereby approved. Our approval is subject to like approval by the New Mexico Oil Conservation Division and the Bureau of Land Management.

ChevronTexaco Exploration & Production Inc.
