Attention: Mr. A. L. Porter, Jr.
Secretary - Director

Gentlemen:

Union Texas Petroleum Corporation has recently completed its Langlie "D" No. 1 well, located 330 feet from South line and 2310 feet from West line of Section 14, T-25-S, R-37-E, Lea County, in the Justis Blinebry Field.

We respectfully request an Administrative Approval for Off-Lease Storage, Rule 309-C, to apply to the Blinebry zone of the subject lease. We propose to utilize an existing separate tank battery located on our Langlie "B" Lease in the same section, as shown on the attached plat.

Since separate facilities are available, commingling of the Blinebry production from the two leases will not result, nor will inter-communication exist. The Langlie "D" Lease is owned by Union Texas Petroleum Corporation 83.333% and Joseph Seagram & Sons 16.667%. This being Federal land, the Lease Number is NM-01995. The Langlie "B" Lease, location of off-lease storage, has the identical ownership and has a Federal Lease Number of NM-05698.

By separate correspondence, we are requesting both Joseph Seagram & Sons, and the Regional Supervisor of the United States Geological Survey for their consent to the proposed off-lease storage. We trust they will so advise you of their consent by separate letter.
