P. O. BOX 2088

SANTA FE, NEW MEXICO

January 4, 1965

C
Tenneco Inc.
Drawer 728
Hobbs, New Mexico

Attention: Mr. J. G. Stevens, Jr.

Amendment ✓
Administrative Order PC-5

Gentlemen:

O
Reference is made to your letter of December 23, 1964, wherein you request that Administrative Order PC-5 be amended to eliminate the requirement for separate measurement of the production from the Drinkard, Blinshy, and Tubb pools prior to commingling.

P
It is our understanding that the production from all of these zones is now of marginal nature and that you therefore wish to commingle the production from these pools, allocating the production on the basis of periodic well tests.

Administrative Order PC-5 is hereby amended to eliminate said metering requirement, subject to the provision that if any of the aforesaid zones should become capable of top allowable production Tenneco Inc. immediately notify the Commission.

Very truly yours,

A. L. Porter, Jr.
Secretary-Director

Re: Revision of Commission Order No. PC-5,
Commingling of Production, TEXACO Inc.,
A. H. Blinebry (NCT-2) Lease, Lea County,
New Mexico

Attention: Mr. A. L. Porter, Jr.

Gentlemen:

In accordance with Section II - "Commingling Between Pools or Zones", Item 1 - "Marginal Zones", of the current New Mexico Oil Conservation Commission's "Manual for the Installation and Operation of Commingling Facilities", TEXACO Inc. respectfully requests permission to commingle the liquid hydrocarbon production from the Drinkard, Blinebry (Gas) and Tubb (Gas) pools on the A. H. Blinebry (NCT-2) Lease located in the S/2 of the SW/4 of Section 29, Township 22 South, Range 38 East, Lea County, New Mexico without separately measuring the production from each pool prior to commingling.

Commission Order No. PC-5 granted authority to commingle the production from the Drinkard, Blinebry, and Tubb (Gas) pools after separately measuring the production. Since the initiation of this commingling procedure on the subject lease, the Blinebry zone has become a Blinebry (Gas) zone and producing capacity has declined such that no well is capable of producing top allowable as indicated on the attached 60-day production tabulation.

In view of the above mentioned facts, it is respectfully requested that Commission Order No. PC-5 be amended to permit commingling the aforesaid production without separately measuring production from each zone prior to commingling.

Yours very truly,

J. G. Blevins, Jr.
Assistant District Superintendent
