Attention: Mr. H. F. Copeland

Administrative Order PC-251

Gentlemen:

Reference is made to your application dated October 21, 1964, for administrative approval for an exception to Rule 303 (a) of the Commission Rules and Regulations to permit the commingling of the Abo and Glorieta production on your Vac Edge Unit in Sections 3,4,5,9, and 10, Township 18 South, Range 35 East, Vacuum Field, Lea County, New Mexico, after separately metering the Glorieta production and determining the Abo production by means of the subtraction method.

By the authority vested in me under the provisions of Rule 303 (b) of the Commission Rules and Regulations, you are hereby authorized to commingle the production from the aforesaid pools on said unit in the above-described manner. Provided however, that the installation shall be operated in accordance with the provisions of the Commission's "Manual for the Installation and Operation of Commingling Facilities," including the requirement for non-reset counters on the meters. Please notify the Hobbs District Office of the Commission at such time as this installation is complete in order that an inspection may be made of the installation prior to putting it in operation.

Very truly yours,

A. L. PORTER, Jr.,  
Secretary-Director
