Administrative Order PC-310

O Gentlemen:

P Reference is made to your application dated September 28, 1966, for administrative approval of an exception to Rule 303 (a) of the Commission Rules and Regulations to permit the commingling of Pennsylvanian and Devonian production on your J. H. Moore "B" Lease which comprises the S/2 NW/4 of Section 25, Township 11 South, Range 32 East, Moore Field, Lea County, New Mexico, after separately measuring the Devonian production and determining the Pennsylvanian production by means of the subtraction method.

Y By the authority vested in me under the provisions of Rule 303 (b) of the Commission Rules and Regulations, you are hereby authorized to commingle the production from the aforesaid pools on said lease in the above-described manner. Provided, however, that the installation shall be operated in accordance with the provisions of the Commission "Manual for the Installation and Operation of Commingling Facilities," including the requirement for non-reset counters on the meters. Please notify the Hobbs District Office of the Commission at such time as the installation is complete in order that an inspection may be made of the installation prior to putting it in operation.

Very truly yours,
