Gentlemen:

Request For Permission To Commingle Production - Wimberly Lease -
Lea County, New Mexico

Continental Oil Company proposes to commingle the production from the
Double X and Triple X pools on its Wimberly Lease, Sections 11 and 12,
T-24S, R-32E, Lea County, New Mexico.

The No. 2 well on this lease has a high GOR and eventually will be
classified as a gas well; therefore, we propose to meter the production
from No. 2. The remaining four wells will be allocated on the basis of
current well tests since they are of a marginal nature.

Attached is a tabulation of the latest well tests, a schematic of the
proposed commingled installations, a lease plat showing wells to be
served by the installation and a letter from U.S.G.S. giving their
approval to the proposed commingling.

Your early approval of the proposed commingling is respectfully requested.

Yours very truly,

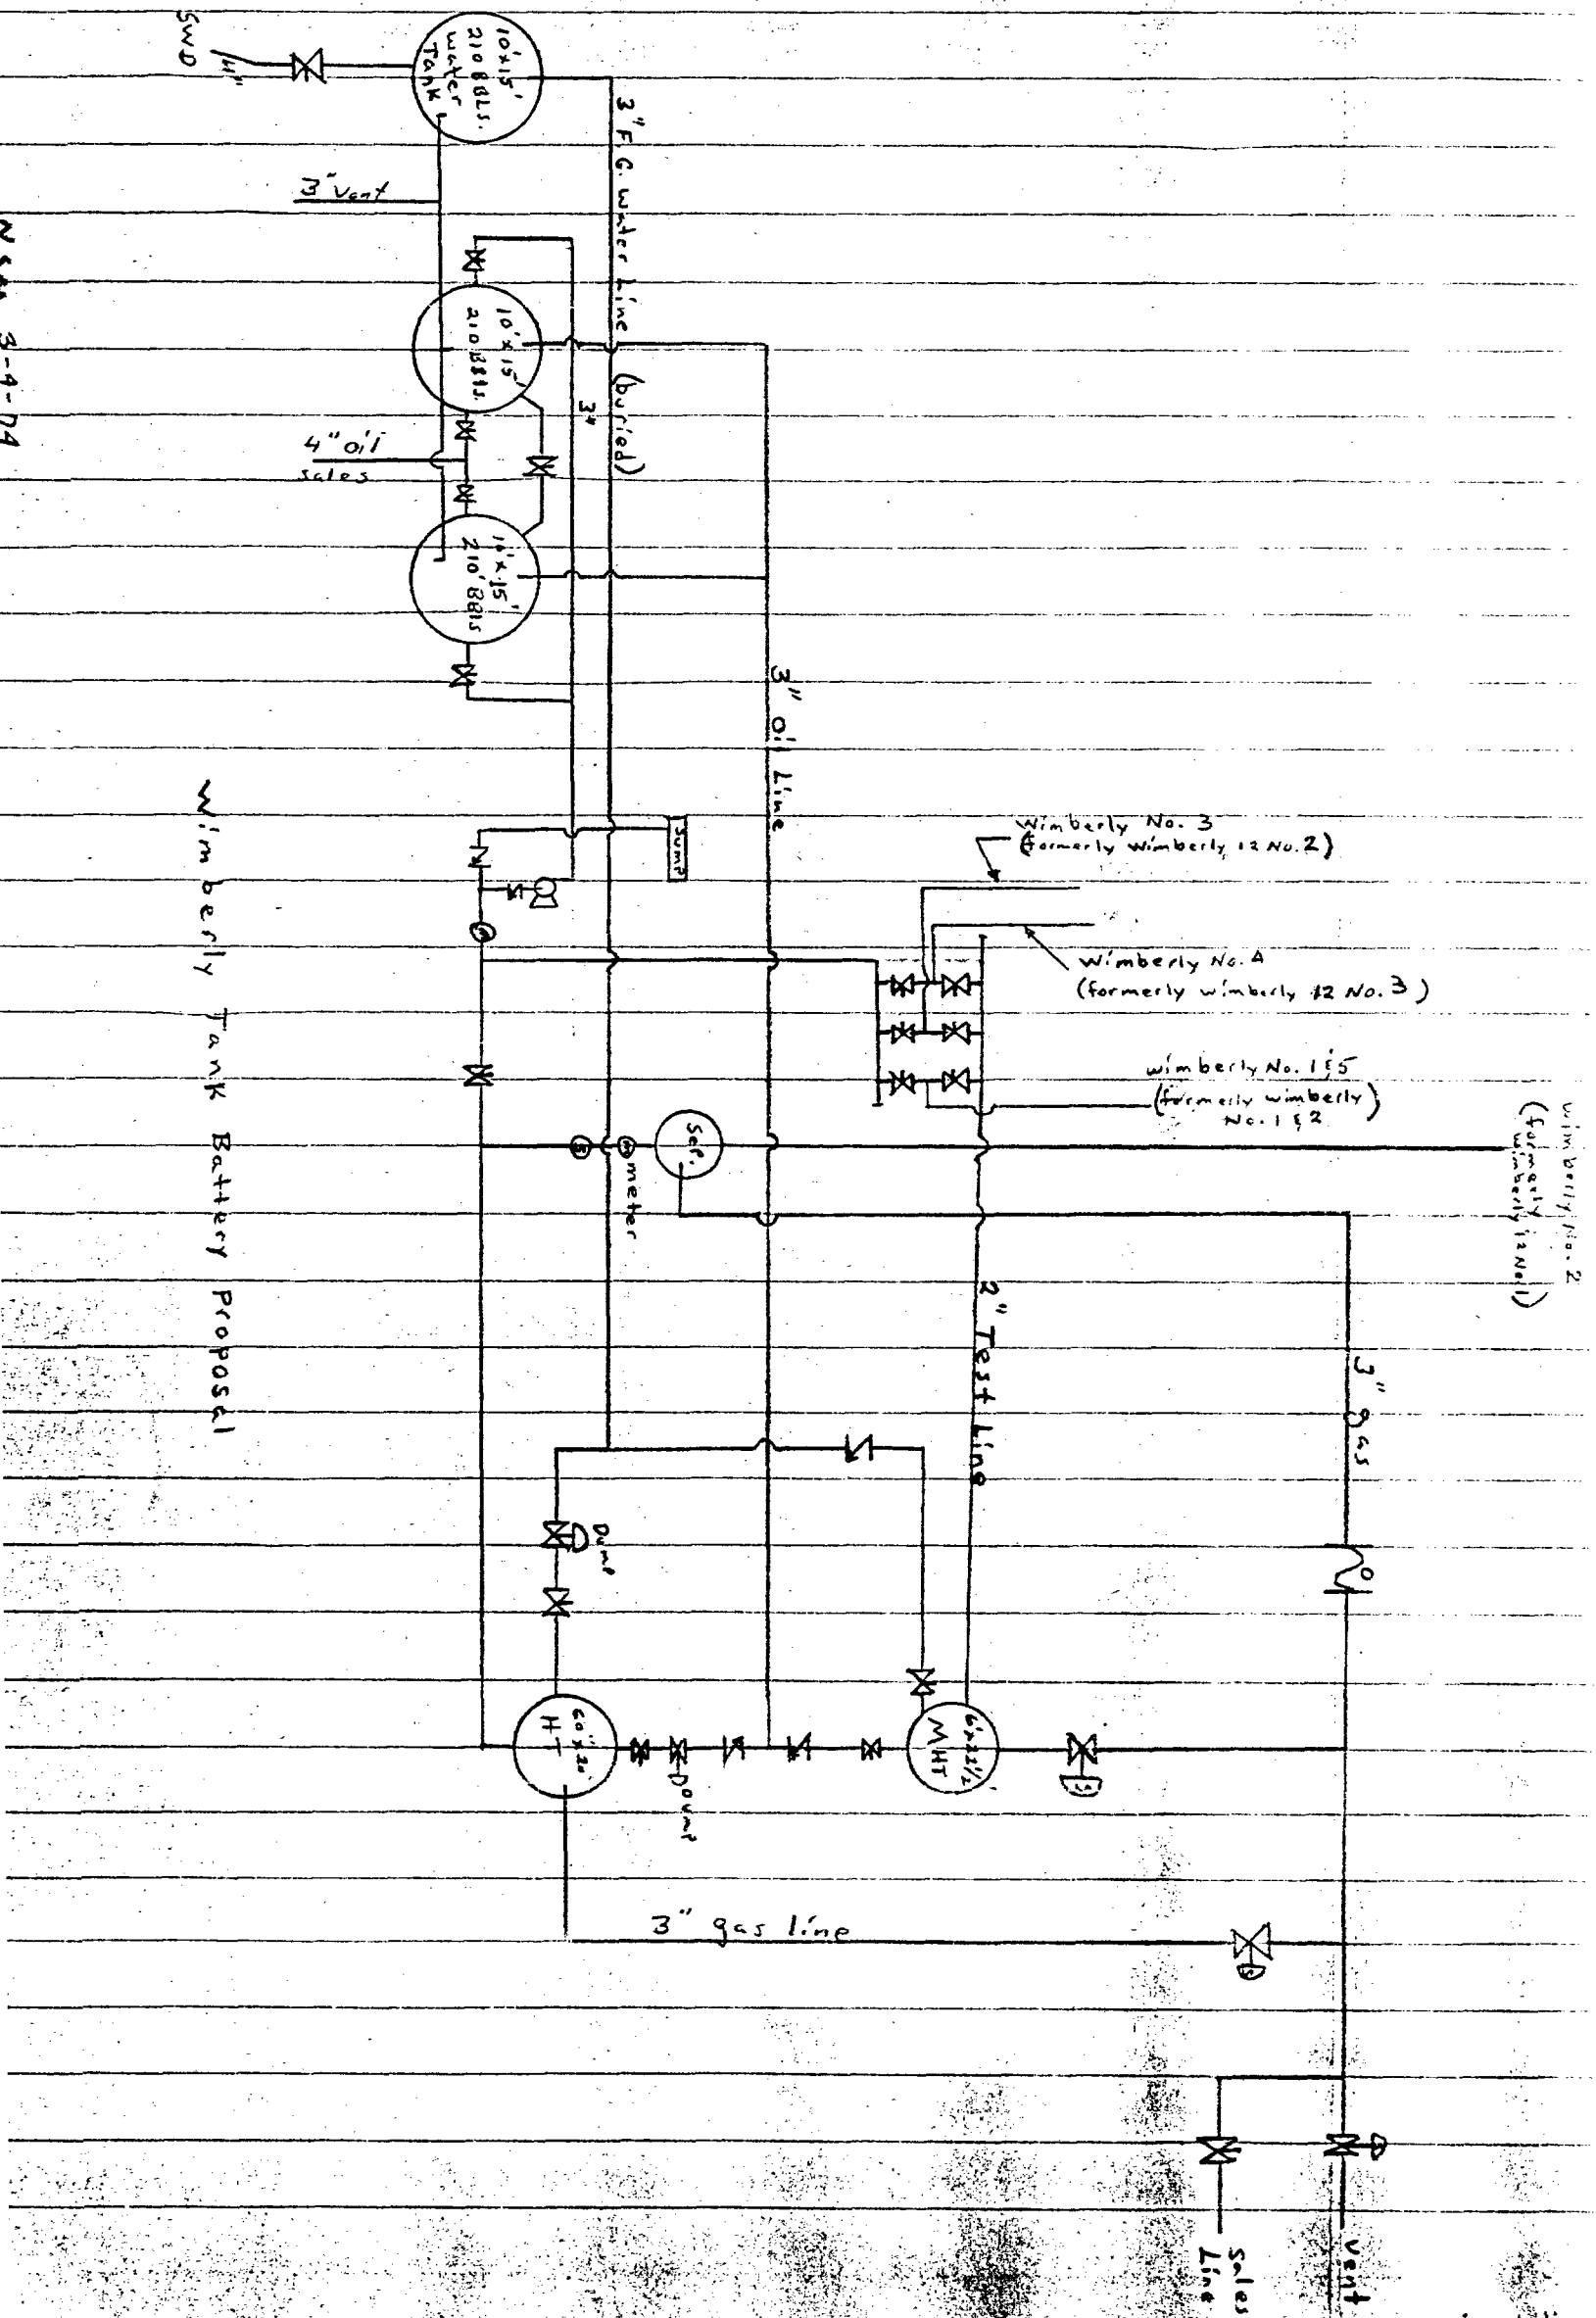

L. P. Thompson
