Re: EXCEPTION TO RULE 303A
SURFACE COMMINGLING
WILL CARY WELL NO. 7
BLINEBRY OIL &
WILL CARY WELL NO. 8
DRINKARD GAS

Gentlemen:

Texas Pacific Oil Company, Inc., respectfully requests Administrative Approval to surface commingle fluids and waive metering requirements from the above referenced wells. Allocation to be determined by well tests.

Production is as follows:

	Will Cary No. 7	Will Cary No. 8
Oil	13	12
Water	28	10
Gas	32	1545
Gravity	37.9	38.4
Choke	-0-	-0-
FTP	-0-	-0-
Status	Pumping	Flowing

The commingling of these two fluids will not result in loss in values of the production. A schematic diagram of the battery installation and plat showing location of the two wells are attached.

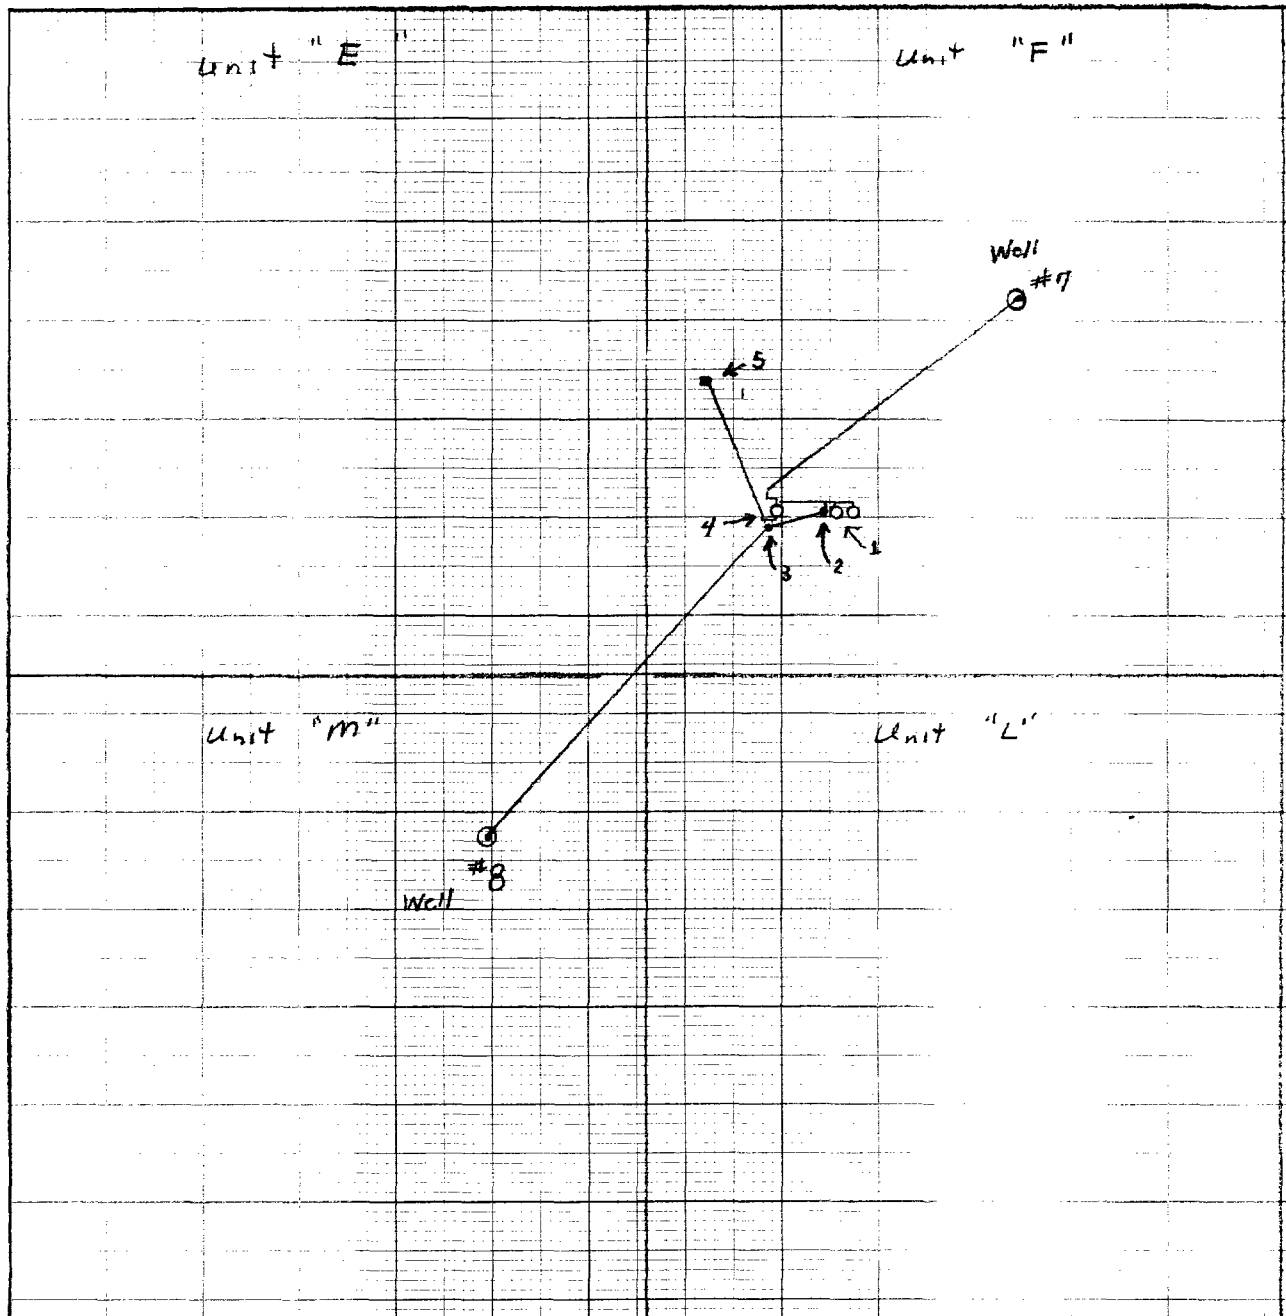

Very truly yours,

TEXAS PACIFIC OIL COMPANY, INC.
