Surface Commingle Notice
Lillie Lease
Section 23, T24S, R37E
Lea County, New Mexico

Paul Miskulin
9102 West Belmont Avenue
Littleton, Colorado 80123

Ladies and Gentlemen:

This letter is to inform you, as a royalty interest owner in the subject lease, that Chevron USA, Inc. is applying for New Mexico Oil Conservation Division approval to surface commingle production from the Lillie #1 well that has recently been completed in the South Fowler Tubb pool, with production from wells #2 and #4 in the Fowler Upper Yeso pool and well #3 in the Fowler Ellenburger pool.

On completion of the surface commingling of production from the subject lease, it should be noted that provisions will be incorporated to allow for individual well testing and proper allocation of production for each pool.

This action will prevent premature abandonment of the well, prolong revenues from production, and should have no adverse affects to involved interested parties.

Yours very truly,

C. O. Blake
