REMARKS:

Gilbert,

You also asked for the price we're  
selling the oil on this lease.

We have not sold any oil from  
this lease since the wells don't  
produce much.

Re: Exception to Statewide Rule 303A  
Surface Commingling  
Boyd Lease  
Wells Nos. 2 and 3  
Lea County, New Mexico

Dear Mr. Quintana:

Sun Exploration & Production Company recently submitted papers to surface commingle the referenced wells. Well no. 3 was shown to be in the Drinkard zone. Since you received this application it was discovered that well no. 3 should be listed in the Paddock zone. This will not affect the price of oil when commingled with the Blinbry and Drinkard from well no. 2.

Attached is the schematic diagram of the battery installation and plat showing location of the two wells (per your request).

If you have any questions or need additional information, please contact me at 915/688-0374.

Very truly yours,
