Dear Mr. Selinger:

Administrative Order NSP-559 authorizing
a non-standard gas proration unit in the Jalmat
Gas Pool for Skelly's J. C. Johnson Lease was
issued on August 28, 1961.

A copy of this order is enclosed, and the
original was sent to your Hobbs office.

Very truly yours,

RICHARD S. MORRIS

Mr. Richard Morris
Oil Conservation Commission
P. O. Box 871
Santa Fe, New Mexico

Dear Mr. Morris:

On July 3, 1961, our field office filed an application for administrative approval on Skelly's J. C. Johnson Lease for an unorthodox gas proration unit in the Jalmat Gas Pool, the twenty day period expiring on August 10th for the filing of protest.

Since the protest period has expired, we presume an administrative order will be forthcoming from the Commission, and we would appreciate your sending a copy to our Hobbs Office, P. O. Box 38, as well as the writer, if and when issued.

Very truly yours,

George W. Selinger

Attention: Mr. A. L. Porter, Jr.

Gentlemen:

Attached please find four copies of an application to extend the gas proration unit for our J. C. Johnson Well No. 4 from one hundred sixty (160) to three hundred twenty (320) acres. Also attached is a plat showing the present gas unit, proposed gas unit, oil & gas wells, and offset operators.

Yours very truly,

SKELLY OIL COMPANY

RE: APPLICATION OF SKELLY OIL
COMPANY TO EXTEND AN UNORTHODOX
GAS PRODUCTION UNIT, TO CONSIST
OF 320 CONTIGUOUS ACRES IN THE
JALMAT GAS POOL, LEA COUNTY,
NEW MEXICO.

TO: THE HONORABLE OIL CONSERVATION COMMISSION OF THE STATE OF NEW MEXICO

Comes now Skelly Oil Company, requesting approval of extending a 160 acre unorthodox gas production unit in the Jalmat Gas Pool, Lea County, New Mexico, where the standard gas production unit is 640 acres. The applicant respectfully alleges and states as follows:

1. That it is the owner and operator of its J. C. Johnson lease, consisting of 320 acres, described as the E/2 of Section 20, T-23-S, R-37-E, Lea County, New Mexico, and that no diversity of royalty ownership is involved.
2. That it is the owner and operator of its J. C. Johnson Well No. 4, located 660 feet from the north line and 660 feet from the west line of the lease and section, and is completed within the vertical limits of the Jalmat gas pool as defined by the New Mexico Oil Conservation Commission.
3. That the present unorthodox gas production unit consists of 160 acres described as the NW/4 of Section 20, T-23-S, R-37-E, Lea County, New Mexico.
4. That the applicant requests extension of the unorthodox gas production unit to include its J. C. Johnson lease in entirety, as described in item one (1) above.
5. That the proposed extension, i. e., the NE/4 of Section 20, can reasonably be presumed to be productive of gas from the Jalmat gas pool.
6. Production tests indicate that:
 - (a) The J. C. Johnson Well No. 4 is capable of a monthly gas production of 59,955 MCF, whereas the highest monthly allowable assigned it during the previous year has been 11,140 MCF.
