Re: Application of Gulf Oil Corporation
For Approval of a 120-Acre Non-
Standard Gas Proration Unit, Blinebry
Gas Pool, Lea County, New Mexico

Gentlemen:

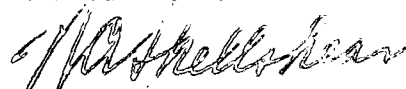

In compliance with Rule 30, Order No. R-1670, which prohibits the simultaneous dedication of acreage to an oil and a gas well, Gulf Oil Corporation respectfully requests administrative approval of a Non-Standard 120-Acre Blinebry Gas Proration Unit covering the E/2 NE/4 and NW/4 NE/4 of Section 3, Township 22 South, Range 37 East, Lea County, New Mexico.

In support of this application, the following facts are submitted:

- (1) Gulf's Mark Well No. 7, located 760 feet from the east line and 1980 feet from the north line of Section 3-22S-37E, is completed in the Blinebry Gas Pool and has been assigned a standard 160-acre Gas Proration Unit covering the NE/4 of this Section 3.
- (2) Gulf's Mark Well No. 3, located 1980 feet from the north and east lines of this Section 10, is now in the process of being completed as a Blinebry oil well.
- (3) The proposed Non-Standard Gas Proration Unit consists of contiguous quarter quarter sections and lies wholly within a single governmental quarter section.
- (4) The entire Non-Standard Gas Proration Unit is reasonably presumed to be gas productive in the Blinebry Gas Pool.
- (5) All operators in this section and within 1500 feet of the unit well have been furnished a copy of this application.

Respectfully submitted,

GULF OIL CORPORATION

W. A. Shellshear
