Michel No. 1--Non-Standard Unit = Unit C, Section 13, T-16-S, R-33-E, Lea County

File: W4-Ta-521-77

New Mexico Oil Conservation Commission (3)

P. O. Box 2088 Santa Fe, New Mexico 88501

Attention: Mr. Joe D. Ramey,

Secretary Director

Gentlemen:

We respectfully request administrative approval of the non-standard proration unit for the captioned well where production has been activated in a previously temporarily abandoned zone. Circumstances supporting this request are as follows:

- The Michel No. 1 was completed in June, 1957, from perforations 13,062-13,200' and subsequently assigned to the Sombrero (Penn Pool) as an orthodox location and standard unit on 160 acres.
- 2. Said completion was made prior to June 1, 1964, when 320 acre units were adopted for Pennsylvanian completions. The Sombrero (Penn) completion was shut in and temporarily abandoned on February 13, 1976, and the well bore completed in the West Kemnitz Cisco Pool.
- 3. Order No. R-5309 effective November 1, 1976, contracted the Sombrero (Penn) Gas Pool vertical limits to include only the Atoka formation and redesignated as the Sombrero (Atoka) Gas Pool. This action occured during the time of shut in on the Michel No. 1 Penn completion.
- 4. The original perforated interval of 13,062-13,200' of this well bore has now been restored to production. That zone is currently recognized as a Morrow completion which, effective June 1, 1964, requires a location of 660 feet from side and 1980 feet from end unit boundaries on a 320 acre unit. The lease and dedicated acreage consists of only 160 acres.

NSP D. II.

New Mexico Oil Conservation Commission To:

From: T. Harold McLemore Date: October 25, 1977

Page: 2

5. Form C-102 reflecting the dedicated proration unit, and an area plat reflecting lease location and offset ownership are enclosed.

- 6. Offset owner(s)/operator(s) of the Morrow zone have been notified of this application by certified mail. Their waivers are hereby requested.
- 7. Statewide Rule 104 (F) provides for the requested administrative action on exceptions to Sections B and C of said rule where circumstances are as those cited above.

It is understood that the current completion will be assigned to "Undesignated-Morrow-Gas" classification for current proration purposes.

Your consideration and approval will be appreciated.

Very truly yours,

PHILLIPS PETROLEUM COMPANY

County, New Mexico

Dear Sir:

We have followed the series of rulings affecting subject well, and as offset operator our waiver is granted.

Attention is called to our official name change from Dalco Oil Company to Sabine Production Company, 901 Wall Towers East, Midland, Texas 79701.

Very truly yours,

Michel No. 1

Section 13, T-16-S, R-33-E Lea County, New Mexico

Mr. Joe D. Ramey, Secretary-Director New Mexico Oil Conservation Commission P. O. Box 2088 Santa Fe, NM 88501

Dear Sir:

Phillips Petroleum Company has requested our waiver of objection to the administrative approval of a non-standard proration unit for the subject well.

The Michel No. 1 is located in Unit C, Section 13, T-16-S, R-33-E in Lea County, 660' FNL and 1979' FWL of the Section. Dedicated acreage consists of only 160 acres.

As an offset operator, Amoco Production Company has no objection to granting administrative approval to this unit and waives notice and hearing.

Yours very truly,

EHW: sam
