Dear Mr. Ramey:

Getty Oil Company wishes to request a Non-Standard Proration Unit for the above referenced well based on corrections to the original survey which resulted in Section 31 being an irregular section. Since this is an irregular section, the dedicated acreage will be 178.93 acres (See attached plat - C-102). Also attached is a plat showing offset operators.

By copy of the attached letter and plats, offset operators were notified of Getty's request for a non-standard proration unit on this well by certified mail.

Yours truly,
GETTY OIL COMPANY
