Gentlemen: **NW/4 SW/4 Dedicated**  
**Sec. 19**

As I discussed with you earlier, the Tom L. Ingram No. 1 Federal "AR" was drilled and completed as an oil well at a location 1980' FSL & 660' FWL of Section 19, T-8-S, R-38-E, Roosevelt County, New Mexico. The location is in an undesignated area within one-half mile of San Andres (P-2) oil production in the Bluit San Andres Associated Pool. Field rules specify 80-acre proration units.

The balance of the acreage in the SW/4 of Section 19 is owned by Amoco and they declined to supply the additional acreage.

For this reason, it is requested that the Secretary-Director of the Commission grant an exception to the size requirements specified in Order No. R-5353 by the authority given in Rule 2 (c).

Copies of this request have been sent to the other three offset operators by certified mail requesting that they execute a waiver.

Very truly yours,

A handwritten signature in cursive script, appearing to read "Tom L. Ingram".

Re: Waiver

Gentlemen:

Attached hereto is a request to the Oil Conservation Division for an exception to the acreage requirement in the Bluitt-San Andres Field in Roosevelt County, New Mexico for the No. 1 Federal "AR". This well has been completed for 20 barrels per day -- considerably less than the 80-acre allowable.

If you do not object to the request, please execute and return two copies of the waiver to me.

Very truly yours,

A handwritten signature in cursive script, reading "Tom L. Ingram". The signature is written in dark ink and is positioned above the printed name.
