NOW, THEREFORE, it is agreed as follows:

ARTICLE I. DEFINITIONS

As used in this agreement, the following words and terms shall have the meanings here ascribed to them:

A. The term "oil and gas" shall mean oil, gas, casinghead gas, gas condensate, and all other liquid or gaseous hydrocarbons and other marketable substances produced therewith, unless an intent to limit the inclusiveness of this term is specifically stated.

B. The terms "oil and gas lease", "lease" and "leasehold" shall mean the oil and gas leases covering tracts of land lying within the Contract Area which are owned by the parties to this agreement.

E. The term "drilling unit" shall mean the area fixed for the drilling of one well by order or rule of any state or federal body having authority. If a drilling unit is not fixed by any such rule or order, a drilling unit shall be the drilling unit as established by the pattern of drilling in the Contract Area or as fixed by express agreement of the Drilling Parties.

F. The term "drillsite" shall mean the oil and gas lease or interest on which a proposed well is to be located.

G. The terms "Drilling Party" and "Consenting Party" shall mean a party who agrees to join in
and pay its share of the cost of any operation conducted under the provisions of this agreement.

ARTICLE III. **INTERESTS OF PARTIES**

A. Oil and Gas Interests:

If any party owns an unleased oil and gas interest in the Contract Area, that interest shall be treated for the purpose of this agreement and during the term hereof as if it were a leased interest under the form of oil and gas lease attached as Exhibit "B". As to such interest, the owner shall receive royalty on production as prescribed in the form of oil and gas lease attached hereto as Exhibit "B". Such party shall, however, be subject to all of the provisions of this agreement relating to lessees, 11 to the extent that it owns the lessee interest.

Unless changed by other provisions, all costs and liabilities incurred in operations under 17 this agreement shall be borne and paid, and all equipment and material acquired in operations on the Contract Area shall be owned by the parties as their interests are shown in Exhibit "A". All produc-18 19 tion of oil and gas from the Contract Area, subject to the payment of lessor's royalties which will be 20 borne by the Joint Account, shall also be owned by the parties in the same manner during the term 21 hereof; provided, however, this shall not be deemed an assignment or cross-assignment of interests cov-

ARTICLE IV. TITLES

27 A. Title Examination:

ered hereby.

29 Title examination shall be made on the drillsite of any proposed well prior to commencement of 30 drilling operations or, if the Drilling Parties so request, title examination shall be made on the leases 31 and/or oil and gas interests included, or planned to be included, in the drilling unit around such well. The opinion will include the ownership of the working interest, minerals, royalty, overriding royalty 32 and production payments under the applicable leases. At the time a well is proposed, each party con-33 tributing leases and/or oil and gas interests to the drillsite, or to be included in such drilling unit, shall 34 furnish to Operator all abstracts (including Federal Lease Status Reports), title opinions, title papers 35 and curative material in its possession free of charge. All such information not in the possession of or 36 made available to Operator by the parties, but necessary for the examination of title, shall be obtained 37 by Operator. Operator shall cause title to be examined by attorneys on its staff or by outside attorneys. 38 Copies of all title opinions shall be furnished to each party hereto. The cost incurred by Operator in 39 40 this title program shall be borne as follows:

41

46

53

59

63

65

42 Costs incurred by Operator in procuring abstracts and title examination (including Option No. 1: preliminary, supplemental, shut-in gas royalty opinions and division order title opinions) shall be a 43 part of the administrative overhead as provided in Exhibit "C," and shall not be a direct charge, whether 44 performed by Operator's staff attorneys or by outside attorneys. 45

47 X Option No. 2: Costs incurred by Operator in procuring abstracts and fees paid outside attorneys 48 for title examination (including preliminary, supplemental, shut-in gas royalty opinions and division 49 order title opinions) shall be borne by the Drilling Parties in the proportion that the interest of each Drilling Party bears to the total interest of all Drilling Parties as such interests appear in Exhibit "A". 50 51 Operator shall make no charge for services rendered by its staff attorneys or other personnel in the 52 performance of the above functions.

54 Each party shall be responsible for securing curative matter and pooling amendments or agreements 55 required in connection with leases or oil and gas interests contributed by such party. The Operator shall be 56 responsible for the preparation and recording of Pooling Designations or Declarations as well as the 57 conduct of hearings before Governmental Agencies for the securing of spacing or pooling orders. This 58 shall not prevent any party from appearing on its own behalf at any such hearing.

60 No well shall be drilled on the Contract Area until after (1) the title to the drillsite or drilling unit 61 has been examined as above provided, and (2) the title has been approved by the examining attorney or 62 title has been accepted by all of the parties who are to participate in the drilling of the well. 旅行

64 B. Loss of Title:

1. Failure of Title: Should any oil and gas interest or lease, or interest therein, be lost through 66 67 failure of title, which loss results in a reduction of interest from that shown on Exhibit "A", this agree-68 ment, nevertheless, shall continue in force as to all remaining oil and gas leases and interests; and (a) The party whose oil and gas lease or interest is affected by the title failure shall bear alone 69

70 the entire loss and it shall not be entitled to recover from Operator or the other parties any development 1 or operating costs which it may have theretofore paid, but there shall be no monetary liability on its 2 part to the other parties hereto for drilling, development, operating or other similar costs by reason of 3 such title failure; and

4 (b) There shall be no retroactive adjustment of expenses incurred or revenues received from the 5 operation of the interest which has been lost, but the interests of the parties shall be revised on an acre-6 age basis, as of the time it is determined finally that title failure has occurred, so that the interest of 7 the party whose lease or interest is affected by the title failure will thereafter be reduced in the Contract 8 Area by the amount of the interest lost; and

9 (c) If the proportionate interest of the other parties hereto in any producing well theretofore drilled 10 on the Contract Area is increased by reason of the title failure, the party whose title has failed shall 11 receive the proceeds attributable to the increase in such interests (less costs and burdens attributable 12 thereto) until it has been reimbursed for unrecovered costs paid by it in connection with such well; 13 and

(d) Should any person not a party to this agreement, who is determined to be the owner of any interest in the title which has failed, pay in any manner any part of the cost of operation, development, or equipment, such amount shall be paid to the party or parties who bore the costs which are so refunded; and

(e) Any liability to account to a third party for prior production of oil and gas which arises by
 reason of title failure shall be borne by the party or parties in the same proportions in which they shared
 in such prior production; and

(f) No charge shall be made to the joint account for legal expenses, fees or salaries, in connection with the defense of the interest claimed by any party hereto, it being the intention of the parties hereto that each shall defend title to its interest and bear all expenses in connection therewith.

24

25 2. Loss by Non-Payment or Erroneous Payment of Amount Due: If, through mistake or oversight, $\mathbf{26}$ any rental, shut-in well payment, minimum royalty or royalty payment, is not paid or is erroneously 27 paid, and as a result a lease or interest therein terminates, there shall be no monetary liability against the party who failed to make such payment. Unless the party who failed to make the required payment 28 29 secures a new lease covering the same interest within ninety (90) days from the discovery of the failure to make proper payment, which acquisition will not be subject to Article VIII.B., the interests of 30 the parties shall be revised on an acreage basis, effective as of the date of termination of the lease in-31 volved, and the party who failed to make proper payment will no longer be credited with an interest in 32 the Contract Area on account of ownership of the lease or interest which has terminated. In the event 33 the party who failed to make the required payment shall not have been fully reimbursed, at the time of 34 the loss, from the proceeds of the sale of oil and gas attributable to the lost interest, calculated on an 35 acreage basis, for the development and operating costs theretofore paid on account of such interest, it 36 shall be reimbursed for unrecovered actual costs theretofore paid by it (but not for its share of the 37 cost of any dry hole previously drilled or wells previously abandoned) from so much of the following 38 39 as is necessary to effect reimbursement:

40 (a) Proceeds of oil and gas, less operating expenses, theretofore accrued to the credit of the lost 41 interest, on an acreage basis, up to the amount of unrecovered costs;

42 (b) Proceeds, less operating expenses, thereafter accrued attributable to the lost interest on an 43 acreage basis, of that portion of oil and gas thereafter produced and marketed (excluding production 44 from any wells thereafter drilled) which, in the absence of such lease termination, would be attributable 45 to the lost interest on an acreage basis, up to the amount of unrecovered costs, the proceeds of said 46 portion of the oil and gas to be contributed by the other parties in proportion to their respective in-47 terests; and

(c) Any monies, up to the amount of unrecovered costs, that may be paid by any party who is, or becomes, the owner of the interest lost, for the privilege of participating in the Contract Area or becoming a party to this agreement.

52 3. <u>Other Losses:</u> All losses incurred, other than those set forth in Articles IV.B.1. and IV.B.2. 53 above, shall not be considered failure of title but shall be joint losses and shall be borne by all parties 54 in proportion to their interests. There shall be no readjustment of interests in the remaining portion of 55 the Contract Area.

B. Resignation or Removal of Operator and Selection of Successor:

1. Resignation or Removal of Operator: Operator may resign at any time by giving written notice 3 thereof to Non-Operators. If Operator terminates its legal existence, no longer owns an interest in the 4 5 Contract Area, or is no longer capable of serving as Operator, it shall cease to be Operator without any 6 action by Non-Operator, except the selection of a successor. Operator may be removed if it fails or 7 refuses to carry out its duties hereunder, or becomes insolvent, bankrupt or is placed in receivership, 8 by the affirmative vote of two (2) or more Non-Operators owning a majority interest based on ownership as shown on Exhibit "A", and not on the number of parties remaining after excluding the voting 9 10 interest of Operator. Such resignation or removal shall not become effective until 7:00 o'clock A.M. 11 on the first day of the calendar month following the expiration of ninety (90) days after the giving of 12 notice of resignation by Operator or action by the Non-Operators to remove Operator, unless a successor 13 Operator has been selected and assumes the duties of Operator at an earlier date. Operator, after effect-14 ive date of resignation or removal, shall be bound by the terms hereof as a Non-Operator. A change of 15 a corporate name or structure of Operator or transfer of Operator's interest to any single subsidiary, parent or successor corporation shall not be the basis for removal of Operator. 16

2. Selection of Successor Operator: Upon the resignation or removal of Operator, a successor Op-18 erator shall be selected by the Parties. The successor Operator shall be selected from the parties owning 19 an interest in the Contract Area at the time such successor Operator is selected. If the Operator that 20 21 is removed fails to vote or votes only to succeed itself, the successor Operator shall be selected by the 22 affirmative vote of two (2) or more parties owning a majority interest based on ownership as shown on Exhibit "A", and not on the number of parties remaining after excluding the voting interest of the 23 24 Operator that was removed.

D. Drilling Contracts:

34 All wells drilled on the Contract Area shall be drilled on a competitive contract basis at the usual rates prevailing in the area. If it so desires, Operator may employ its own tools and equipment in the 35 drilling of wells, but its charges therefor shall not exceed the prevailing rates in the area and the rate 36 of such charges shall be agreed upon by the parties in writing before drilling operations are com-37 38 menced, and such work shall be performed by Operator under the same terms and conditions as are 39 customary and usual in the area in contracts of independent contractors who are doing work of a sim-40 ilar nature.

ARTICLE VI. DRILLING AND DEVELOPMENT

A. Initial Well:

June _ .20^{.04}, Operator shall commence the drill-47 On or before the <u>lst</u> day of 48 ing of a well for oil and gas at the following location:

> Township 8 South, Range 26 East, N.M.P.M. Section 2: Lots 1,2 (N/2NE/4), SE/4NE/4, SE/4, SW/4NE/4 a/k/a Chaves County, New Mexico

and shall thereafter continue the drilling of the well with due diligence to adequately test 54 the Ordovician, Wolfcamp and Abo formations. 55

unless granite or other practically impenetrable substance or condition in the hole, which renders 58 further drilling impractical, is encountered at a lesser depth, or unless all parties agree to complete or 59 60 abandon the well at a lesser depth. h: -61

Operator shall make reasonable tests of all formations encountered during drilling which give in-62 dication of containing oil and gas in quantities sufficient to test, unless this agreement shall be limited 63 in its application to a specific formation or formations, in which event Operator shall be required to 64 test only the formation or formations to which this agreement may apply. 65 t 66

If, in Operator's judgment, the well will not produce oil or gas in paying quantities; and it wishes 67 to plug and abandon the well as a dry hole, it shall first secure the consent of all parties and shall 68 69 plug and abandon same as provided in Article VI.E.1. hereof. weight when performed in weight been 70 Anterican Amoniation of Potentinion University

1 **B.** Subsequent Operations:

3 1. Proposed Operations: Should any party hereto desire to drill any well on the Contract Area 4 other than the well provided for in Article VI.A., or to rework, deepen or plug back a dry hole drilled at the joint expense of all parties or a well jointly owned by all the parties and not then producing 5 in paying quantities, the party desiring to drill, rework, deepen or plug back such a well shall give the 6 7 other parties written notice of the proposed operation, specifying the work to be performed, the loca-8 tion, proposed depth, objective formation and the estimated cost of the operation. The parties receiving such a notice shall have thirty (30) days after receipt of the notice within which to notify the 9 parties wishing to do the work whether they elect to participate in the cost of the proposed operation. 10 11 If a drilling rig is on location, notice of proposal to rework, plug back or drill deeper may be given 12 by telephone and the response period shall be limited to forty-eight (48) hours, exclusive of Saturday, 13 Sunday or legal holidays. Failure of a party receiving such notice to reply within the period above fixed 14 shall constitute an election by that party not to participate in the cost of the proposed operation. Any 15 notice or response given by telephone shall be promptly confirmed in writing.

16

2

17 2. Operations by Less than All Parties: If any party receiving such notice as provided in Article 18 VI.B.1. or VI.E.1. elects not to participate in the proposed operation, then, in order to be entitled to 19 the benefits of this article, the party or parties giving the notice and such other parties as shall elect 20 to participate in the operation shall, within sixty (60) days after the expiration of the notice period of 21 thirty (30) days (or as promptly as possible after the expiration of the forty-eight (48) hour period 22 where the drilling rig is on location, as the case may be) actually commence work on the proposed 23 operation and complete it with due diligence. Operator shall perform all work for the account of the 24 Consenting Parties; provided, however, if no drilling rig or other equipment is on location, and if Op-25 erator is a Non-Consenting Party, the Consenting Parties shall either: (a) request Operator to perform 26 the work required by such proposed operation for the account of the Consenting Parties, or (b) desig-27 nate one (1) of the Consenting Parties as Operator to perform such work. Consenting Parties, when conducting operations on the Contract Area pursuant to this Article VI.B.2., shall comply with all terms 28 29 and conditions of this agreement. 30

If less than all parties approve any proposed operation, the proposing party, immediately after the 31 32 expiration of the applicable notice period, shall advise the Consenting Parties of (a) the total interest 33 of the parties approving such operation, and (b) its recommendation as to whether the Consenting Parties should proceed with the operation as proposed. Each Consenting Party, within forty-eight (48) 34 35 hours (exclusive of Saturday, Sunday or legal holidays) after receipt of such notice, shall advise the 36 proposing party of its desire to (a) limit participation to such party's interest as shown on Exhibit "A", 37 or (b) carry its proportionate part of Non-Consenting Parties' interest. The proposing party, at its election, may withdraw such proposal if there is insufficient participation, and shall promptly notify 38 39 all parties of such decision.

40

41 The entire cost and risk of conducting such operations shall be borne by the Consenting Parties in 42 the proportions they have elected to bear same under the terms of the preceding paragraph. Consenting 43 Parties shall keep the leasehold estates involved in such operations free and clear of all liens and 44 encumbrances of every kind created by or arising from the operations of the Consenting Parties. If such an operation results in a dry hole, the Consenting Parties shall plug and abandon the well at their sole 45 46 cost, risk and expense. If any well drilled, reworked, deepened or plugged back under the provisions 47 of this Article results in a producer of oil and/or gas in paying quantities, the Consenting Parties shall 48 complete and equip the well to produce at their sole cost and risk, and the well shall then be turned 49 over to Operator and shall be operated by it at the expense and for the account of the Consenting Parties. Upon commencement of operations for the drilling, reworking, deepening or plugging back of any such 50 well by Consenting Parties in accordance with the provisions of this Article, each Non-Consenting Party 51 52shall be deemed to have relinquished to Consenting Parties, and the Consenting Parties shall own and 53 be entitled to receive, in proportion to their respective interests, all of such Non-Consenting Party's 54 interest in the well and share of production therefrom until the proceeds of the sale of such share, 55calculated at the well, or market value thereof if such share is not sold (after deducting production 56 taxes, crude oil excise taxes, royalty, overriding royalty and other interests existing on the effective date hereof, payable out of or measured by the production from such well accruing with respect to such interests until it reverts) shall equal the total of the 57 following: 58

59

60 (a) 200% of each such Non-Consenting Party's share of the cost of any newly acquired surface 61 equipment beyond the wellhead connections (including, but not limited to, stock tanks, separators, treaters, pumping equipment and piping), plus 100% of each such Non-Consenting Party's share of the 62 63 cost of operation of the well commencing with first production and continuing until each such Non-64 Consenting Party's relinquished interest shall revert to it under other provisions of this Article, it being agreed that each Non-Consenting Party's share of such costs and equipment will be that interest which 65 would have been chargeable to each Non-Consenting Party had it participated in the well from the be-66 67 ginning of the operation; and CUSA V , 15,

(b) 500 % of that portion of the costs and expenses of drilling reworking, deepening, or plugging. 69 70 back, testing and completing, after deducting any cash contributions received under Article-Will(Gr and 1 500% of that portion of the cost of newly acquired equipment in the well (to and including the well-2 head connections), which would have been chargeable to such Non-Consenting Party if it had partici-3 pated therein.

5 Gas production attributable to any Non - Consenting Party's relinquished interest upon such Party's 6 election, shall be sold to its purchaser, if available, under the terms of its existing gas sales contract. Such Non - Consenting Party shall direct its purchaser to remit the proceeds receivable from 7 8 such sale direct to the Consenting Parties until the amounts provided for in this Article are recovered from the Non-Consenting Party's relinquished interest. If such Non-Consenting Party has not 9 10 contracted for sale of its gas at the time such gas is available for delivery, or has not made the elec-11 tion as provided above, the Consenting Parties shall own and be entitled to receive and sell such Non-12 Consenting Party's share of gas as hereinabove provided during the recoupment period.

During the period of time Consenting Parties are entitled to receive Non-Consenting Party's share of production, or the proceeds therefrom, Consenting Parties shall be responsible for the payment of all production, crude oil excise taxes, severance, gathering and other taxes, and all royalty, overriding royalty and other burdens applicable to Non-Consenting Party's share of production.

4

In the case of any reworking, plugging back or deeper drilling operation, the Consenting Parties shall be permitted to use, free of cost, all casing, tubing and other equipment in the well, but the ownership of all such equipment shall remain unchanged; and upon abandonment of a well after such reworking, plugging back or deeper drilling, the Consenting Parties shall account for all such equipment to the owners thereof, with each party receiving its proportionate part in kind or in value, less cost of salvage.

26 Within sixty (60) days after the completion of any operation under this Article, the party con-27 ducting the operations for the Consenting Parties shall furnish each Non-Consenting Party with an in-28 ventory of the equipment in and connected to the well, and an itemized statement of the cost of drilling, deepening, plugging back, testing, completing, and equipping the well for production; or, at its option, 29 30 the operating party, in lieu of an itemized statement of such costs of operation, may submit a detailed statement of monthly billings. Each month thereafter, during the time the Consenting Parties are being 31 reimbursed as provided above, the Party conducting the operations for the Consenting Parties shall furn-32 ish the Non-Consenting Parties with an itemized statement of all costs and liabilities incurred in the 33 34 operation of the well, together with a statement of the quantity of oil and gas produced from it and the 35 amount of proceeds realized from the sale of the well's working interest production during the preceding 36 month. In determining the quantity of oil and gas produced during any month, Consenting Parties shall use industry accepted methods such as, but not limited to, metering or periodic well tests. Any 37 38 amount realized from the sale or other disposition of equipment newly acquired in connection with any 39 such operation which would have been owned by a Non-Consenting Party had it participated therein 40 shall be credited against the total unreturned costs of the work done and of the equipment purchased, 41 in determining when the interest of such Non-Consenting Party shall revert to it as above provided; 42 and if there is a credit balance, it shall be paid to such Non-Consenting party.

43

44 If and when the Consenting Parties recover from a Non-Consenting Party's relinquished interest 45 the amounts provided for above, the relinquished interests of such Non-Consenting Party shall auto-46 matically revert to it, and, from and after such reversion, such Non-Consenting Party shall own the same 47 interest in such well, the material and equipment in or pertaining thereto, and the production there-48 from as such Non-Consenting Party would have been entitled to had it participated in the drilling, 49 reworking, deepening or plugging back of said well. Thereafter, such Non-Consenting Party shall be 50 charged with and shall pay its proportionate part of the further costs of the operation of said well in 51 accordance with the terms of this agreement and the Accounting Procedure, attached hereto. 52

53 Notwithstanding the provisions of this Article VI.B.2., it is agreed that without the mutual consent 54 of all parties, no wells shall be completed in or produced from a source of supply from which a well 55 located elsewhere on the Contract Area is producing, unless such well conforms to the then-existing 56 well spacing pattern for such source of supply.

57

The provisions of this Article shall have no application whatsoever to the drilling of the initial well described in Article VI.A. except (a) when Option 2, Article VII.D.1., has been selected, or (b) to the reworking, deepening and plugging back of such initial well, if such well is or thereafter, shall prove to be a dry hole or non-commercial well, after having been drilled to the depth specified in Article VI.A.

Each party electing to take in kind or separately dispose of its proportionate share of the production from the Contract Area shall keep accurate records of the volume, selling price, royalty and taxes relative to its share of production. Non-Operators shall, upon request, furnish Operator with true and complete copies of the records required to be kept thereunder whenever, under the terms of this agreement or any agreement executed in connection herewith, it is necessary for Operator to obtain said information. Any information furnished to Operator hereunder shall be used by Operator only to the extent necessary to carry out its duties as Operator and shall otherwise be kept confidential.

Each party shall execute such division orders and contracts as may be necessary for the sale of its interest in production from the Contract Area, and, except as provided in Article VII.B., shall be entitled to receive payment direct from the purchaser thereof for its share of all production.

8 In the event any party shall fail to make the arrangements necessary to take in kind or separately dispose of its proportionate share of the oil and gas produced from the Contract Area, Operator shall have 9 10 the right, subject to the revocation at will by the party owning it, but not the obligation, to purchase such 11 oil and gas or sell it to others at any time and from time to time, for the account of the non-taking 12party at the best price obtainable in the area for such production. Any such purchase or sale by Op-13 erator shall be subject always to the right of the owner of the production to exercise at any time its right to take in kind, or separately dispose of, its share of all oil and gas not previously delivered to a 14 15 purchaser. In the event any party hereto is not at any time taking or marketing its share of gas production and Operator is either (i) unwilling to purchase or sell or (ii) unable to obtain the prior written consent to purchase or sell such party's share of gas production, or in the event any party has contracted to sell its share of gas produced from the Contract Area to a purchaser which does not at any time while this agreement is in effect take the full share of gas attributable to the interest of such party, then in any such event the terms and conditions of the Gas Balancing Agreement attached hereto as Exhibit "E" and incorporated herein shall automatically become effective.

EXHIBIT "C"

Attached to and made a part of <u>Operating Agreement dated</u> <u>dated February 19, 2004, by and between Yates Petroleum</u> <u>Corporation, as "Operator" and Campbell Investment</u> <u>Company, et al, as "Non-Operators".</u>

ACCOUNTING PROCEDURE JOINT OPERATIONS

I. GENERAL PROVISIONS

1. Definitions

"Joint Property" shall mean the real and personal property subject to the agreement to which this Accounting Procedure is attached.

"Joint Operations" shall mean all operations necessary or proper for the development, operation, protection and maintenance of the Joint Property.

"Joint Account" shall mean the account showing the charges paid and credits received in the conduct of the Joint Operations and which are to be shared by the Parties.

"Operator" shall mean the party designated to conduct the Joint Operations.

"Non-Operators" shall mean the parties to this agreement other than the Operator.

"Parties" shall mean Operator and Non-Operators.

"First Level Supervisors" shall mean those employees whose primary function in Joint Operations is the direct supervision of other employees and/or contract labor directly employed on the Joint Property in a field operating capacity.

"Technical Employees" shall mean those employees having special and specific engineering, geological or other professional skills, and whose primary function in Joint Operations is the handling of specific operating conditions and problems for the benefit of the Joint Property.

"Personal Expenses" shall mean travel and other reasonable reimbursable expenses of Operator's employees.

"Material" shall mean personal property, equipment or supplies acquired or held for use on the Joint Property. "Controllable Material" shall mean Material which at the time is so classified in the Material Classification Manual as most recently recommended by the Council of Petroleum Accountants Societies of North America.

2. Statement and Billings

Operator shall bill Non-Operators on or before the last day of each month for their proportionate share of the Joint Account for the preceding month. Such bills will be accompanied by statements which identify the authority for expenditure, lease or facility, and all charges and credits, summarized by appropriate classifications of investment and expense except that items of Controllable Material and unusual charges and credits shall be separately identified and fully described in detail.

3. Advances and Payments by Non-Operators

Unless otherwise provided for in the agreement, the Operator may require the Non-Operators to advance their share of estimated cash outlay for the succeeding month's operation. Operator shall adjust each monthly billing to reflect advances received from the Non-Operators.

Each Non-Operator shall pay its proportion of all bills within fifteen (15) days after receipt. If payment is not made within such time, the unpaid balance shall bear interest monthly at the rate of twelve percent (12%) per annum or the maximum contract rate permitted by the applicable usury laws in the state in which the Joint Property is located, whichever is the lesser, plus attorney's fees, court costs, and other costs in connection with the collection of unpaid amounts.

4. Adjustments

Payment of any such bills shall not prejudice the right of any Non-Operator to protest or question the correctness thereof; provided, however, all bills and statements rendered to Non-Operators by Operator during any calendar year shall conclusively be presumed to be true and correct after twenty-four (24) months following the end of any such calendar year, unless within the said twenty-four (24) month period a Non-Operator takes written exception thereto and makes claim on Operator for adjustment. No adjustment favorable to Operator shall be made unless it is made within the same prescribed period. The provisions of this paragraph shall not prevent adjustments resulting from a physical inventory of Controllable Material as provided for in Section V.

5. Audits

A. Non-Operator, upon notice in writing to Operator and all other Non-Operators, shall have the right to audit Operator's accounts and records relating to the Joint Account for any calendar year within the twenty-four (24) month period following the end of such calendar year; provided, however, the making of an audit shall not extend the time for the taking of written exception to and the adjustments of accounts as provided for in Paragraph 4 of this Section I. Where there are two or more Non-Operators, the Non-Operators shall make every reasonable effort to conduct joint or simultaneous audits in a manner which will result in a minimum of inconvenience to the Operator. Operator shall bear no portion of the Non-Operators' audit cost incurred under this paragraph unless agreed to by the Operator.

6. Approval by Non-Operators

Where an approval or other agreement of the Parties or Non-Operators is expressly required under other sections of this Accounting Procedure and if the agreement to which this Accounting Procedure is attached contains no contrary provisions in regard thereto, Operator shall notify all Non-Operators of the Operator's proposal, and the agreement or approval of a majority in interest of the Non-Operators shall be controlling on all Non-Operators. 7. Equipment and Facilities Furnished by Operator

- A. Operator shall charge the Joint Account for use of Operator owned equipment and facilities at rates commensurate with costs of ownership and operation. Such rates shall include costs of maintenance, repairs, other operating expense, insurance, taxes, depreciation, and interest on investment not to exceed eight per cent (8%) per annum. Such rates shall not exceed average commercial rates currently prevailing in the immediate area of the Joint Property.
- B. In lieu of charges in Paragraph 7A above, Operator may elect to use average commercial rates prevailing in the immediate area of the Joint Property less 20%. For automotive equipment, Operator may elect to use rates published by the Petroleum Motor Transport Association.

8. Damages and Losses to Joint Property

All costs or expenses necessary for the repair or replacement of Joint Property made necessary because of damages or losses incurred by fire, flood, storm, theft, accident, or other cause, except those resulting from Operator's gross negligence or willful misconduct. - A. Expense of handling, investigating and settling litigation or claims, discharging of liens, payment of judgments and amounts paid for settlement of claims incurred in or resulting from operations under the agreement or necessary to protect or recover the Joint Property, except that no charge for services of Operator's legal staff or fees or expense of outside attorneys shall be made unless previously agreed to by the Parties. All other legal expense is considered to be covered by the overhead provisions of Section III unless otherwise agreed to by the Parties, except as provided in Section I, Paragraph 3.

In the event Joint Operations are conducted in a state in which Operator may act as self-insurer for Workmen's Compensation and/or Employers Liability under the respective state's laws, Operator may, at its election, include the risk under its self-insurance program and in that event, Operator shall include a charge at Operator's cost not to exceed manual rates.

Material which is not in sound and serviceable condition and not suitable for its original function until after reconditioning shall be priced at fifty percent (50%) of current new price as determined by Paragraph 2A of this Section IV. The cost of reconditioning shall be charged to the receiving property, provided Condition C value plus cost of reconditioning does not exceed Condition B value.

(2) Condition D

All other Material, including junk, shall be priced at a value commensurate with its use or at prevailing prices. Material no longer suitable for its original purpose but usable for some other purpose, shall be priced on a basis comparable with that of items normally used for such other purpose. Operator may dispose of Condition D Material under procedures normally utilized by the Operator without prior approval of Non-Operators.

D. Obsolete Material

Material which is serviceable and usable for its original function but condition and/or value of such Material is not equivalent to that which would justify a price as provided above may be specially priced as agreed to by the Parties. Such price should result in the Joint Account being charged with the value of the service rendered by such Material.

- E. Pricing Conditions
 - (1) Loading and unloading costs may be charged to the Joint Account at the rate of fifteen cents (15ϕ) per hundred weight on all tubular goods movements, in lieu of loading and unloading costs sustained, when actual hauling cost of such tubular goods are equalized under provisions of Paragraph 5 of Section II.
 - (2) Material involving erection costs shall be charged at applicable percentage of the current knocked-down price of new Material.

3. Premium Prices

Whenever Material is not readily obtainable at published or listed prices because of national emergencies, strikes or other unusual causes over which the Operator has no control, the Operator may charge the Joint Account for the required Material at the Operator's actual cost incurred in providing such Material, in making it suitable for use, and in moving it to the Joint Property; provided notice in writing is furnished to Non-Operators of the proposed charge prior to billing Non-Operators for such Material. Each Non-Operator shall have the right, by so electing and notifying Operator within ten days after receiving notice from Operator, to furnish in kind all or part of his share of such Material suitable for use and acceptable to Operator.

4. Warranty of Material Furnished by Operator

Operator does not warrant the Material furnished. In case of defective Material, credit shall not be passed to the Joint Account until adjustment has been received by Operator from the manufacturers or their agents.

V. INVENTORIES

The Operator shall maintain detailed records of Controllable Material.

1. Periodic Inventories, Notice and Representation

At reasonable intervals, Inventories shall be taken by Operator of the Joint Account Controllable Material. Written notice of intention to take inventory shall be given by Operator at least thirty (30) days before any inventory is to begin so that Non-Operators may be represented when any inventory is taken. Failure of Non-Operators to be represented at an inventory shall bind Non-Operators to accept the inventory taken by Operator.

2. Reconciliation and Adjustment of Inventories

Reconciliation of a physical inventory with the Joint Account shall be made, and a list of overages and shortages shall be furnished to the Non-Operators within six months following the taking of the inventory. Inventory adjustments shall be made by Operator with the Joint Account for overages and shortages, but Operator shall be held accountable only for shortages due to lack of reasonable diligence.

3. Special Inventories

Special Inventories may be taken whenever there is any sale or change of interest in the Joint Property. It shall be the duty of the party selling to notify all other Parties as quickly as possible after the transfer of interest takes place. In such cases, both the seller and the purchaser shall be governed by such inventory.

4. Expense of Conducting Periodic Inventories

The expense of conducting periodic Inventories shall not be charged to the Joint Account unless agreed to by the Parties.

EXHIBIT "E"

GAS BALANCING AGREEMENT

The parties to the Operating Agreement to which this agreement is attached own the working interest in the gas rights underlying the lands covered by such agreement (the "Contract Area") in accordance with the percentages of participation as set forth in Exhibit "A" to the Operating Agreement (the "participation percentage").

In accordance with the terms of the Operating Agreement, each party thereto has the right to take its share of gas produced from the Contract Area and market the same. In the event any of the parties hereto collectively owning participation percentages of less than 50% are not at any time taking or marketing their share of gas or have contracted to sell their share of gas produced from the Contract Area to a purchaser which does not at any time while this agreement is in effect take the full share of gas attributable to the interest of such parties, this agreement shall automatically become effective upon the terms hereinafter set forth.

1. During the period or periods when any parties hereto collectively owning participation percentages of less than 50% have no market for their share of gas produced from any proration unit within the Contract Area, or their purchaser does not take its full share of gas produced from such proration unit, other parties collectively owning participation percentages of more than 50% shall be entitled to produce each month 100% of the lesser of a) allowable gas production assigned to such proration unit by applicable state regulatory authority or b) the delivery capacity of gas from such proration unit; provided, however, no party who does not have gas in place shall be entitled to take or deliver to a purchaser gas production in excess of 200% of the lesser of c) its share of the volumes of gas capable of being delivered on a daily basis or d) its share of allowable gas production. All parties hereto shall share in and own the liquid hydrocarbons recovered from such gas by lease equipment in accordance with their respective interests and subject to the Operating Agreement to which this agreement is attached, but the party or parties taking such gas shall own all of the gas delivered to its or their purchaser.

2. On a cumulative basis, each party not taking or marketing its full share of the gas produced shall be credited with gas in place equal to its full share of the gas produced under this agreement, less its share of gas used in lease operations, vented or lost, and less that portion such party took or delivered to its purchaser. The Operator will maintain a current account of gas balance between the parties and will furnish all parties hereto monthly statements showing the total quantity of gas produced, the amount used in lease operations, vented or lost, the total quantity of liquid hydrocarbons recovered therefrom, and the monthly and cumulative over and under account of each party.

3. At all times while gas is produced from the Contract Area, each party hereto will make settlement with all royalty owners to whom royalty is due. Each party hereto agrees to hold each other party harmless from any and all claims for royalty payments asserted by royalty owners paid by each party. The term "royalty owner" shall include owners of royalty, overriding royalties, production payments and other similar interests.

Each party producing and taking or delivering gas to its purchaser shall pay any and all production taxes due on such gas.

4. After notice to the Operator, any party at any time may begin taking or delivering to its purchaser its full share of the gas produced from a proration unit under which it has gas in place less such party's share of gas used in operations, vented or lost. In addition to such share, each party, including the Operator, until it has recovered its gas in place and balanced the gas account as to its interest, shall be entitled to take or deliver to its purchaser a share of gas determined by multiplying 50% of the interest in the current gas production of the party or parties without gas in place by a fraction, the numerator of which is the interest in the proration unit of such party with gas in place and the denominator of which is the total percentage interest in such proration unit of all parties with gas in place currently taking or delivering to a purchaser.

5. Nothing herein shall be construed to deny any party the right, from time to time, to produce and take or deliver to its purchaser its full share of the allowable gas production to meet the deliverability tests required by its purchaser, provided that said test should be reasonable in length, normally not to exceed 72 hours.

BETWEEN YATES PETROLEUM CORPORATION, AS "OPERATOR" AND CAMPBELL INVESTMENT COMPANY, ET AL, AS NON-OPERATORS".

6. If a proration unit ceases to produce gas and/or liquid hydrocarbons in paying quantities before the gas account is balanced, settlement will be made between the underproduced and overproduced parties. In making such settlement, the underproduced party or parties will be paid a sum of money by the overproduced party or parties attributable to the overproduction which said overproduced party received, less applicable taxes theretofore paid, at the applicable price defined below for the delivery of a volume of gas equal to that for which settlement is made. For gas, the price of which is not regulated by federal, state or other governmental agencies, the price basis shall be the price received for the sale of the gas. For gas, the price of which is subject to regulation by federal, state or other governmental authorities, the price basis shall be the rate collected, from time to time, which is not subject to possible refund, as provided by the Federal Energy Regulatory Commission or any other governmental authority, pursuant to final order or settlement applicable to the gas sold from such well, plus any additional collected amount which is not ultimately required to be refunded by such authority, such additional collected amount to be accounted for at such time as final determination is made with respect hereto.

7. Notwithstanding the provisions of ¶6, it is expressly agreed that any underproduced party shall have the optional right, with respect to each proration unit, to receive a cash settlement bringing such underproduced party's gas account into balance at any time and from time to time prior to the final settlement, by first giving each overproduced party 90 days' written notice of demand for cash settlement. If such option is so exercised, settlement shall be made (as of 7:00 o'clock A.M. on the first day of the calendar month following the date of such written demands) within 90 days following the actual receipt of such written demands by the overproduced parties, in the same manner provided for in ¶6. The option provided for in this paragraph may be exercised, from time to time, but only one time in each calendar year.

8. Nothing herein shall change or affect each party's obligation to pay its proportionate share of all costs and liabilities incurred, as its share thereof is set forth in the Operating Agreement.

9. This agreement shall constitute a separate agreement as to each proration unit approved by the applicable regulatory authority for a pool within the Contract Area, but such proration unit shall not include any producing horizon which is not within the vertical limits of said pool. This agreement shall remain in force and effect so long as the Operating Agreement to which it is attached remains in effect, and shall inure to the benefit of and be binding upon the parties hereto, their heirs, successors, legal representatives and assigns.

The Operator will include the provisions of Paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to Section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor.
