Murchison Oil Company

STATEMENT OF CASE

Applicant seeks an order pooling all mineral interests in the Strawn formation, (Eagle Creek Strawn Gas Pool), Atoka and Morrow formations, (Eagle Creek East Atoka-Morrow Gas Pool) and the Pennsylvanian formation (Eagle Creek Permo-

Pennsylvanian Gas Pool) underlying the N/2 of Section 29, Township 17 South, Range 26 East, NMPM, Eddy County, New Mexico, to form standard 320-acre spacing and proration units for each of the referenced formations and pools.

Applicant has been unable to obtain the voluntary joinder of Chase Farms and Chase Oil Corporation due to their insistence on onerous participation terms and their opposition to the surface location for the proposed well. As a consequence, these matters may be at issue in the hearing on the Application.

STATEMENT OF CASE

Opposing Party

Preston Exploration, L.L.C. seeks an order pooling all mineral interests in the Strawn formation (Eagle Creek Strawn Gas Pool), Atoka and Morrow formations (Eagle Creek East Atoka-Morrow Gas Pool, and the Pennsylvanian formation (Eagle Creek Permo-Pennsylvanian Gas Pool) underlying the N/2 of Section 29, Township 17 South, Range 26 East to form standard 320-acre gas spacing and proration units for any and all formations and/or pools developed on 320-acre spacing within that vertical extent. The units are to be dedicated to applicant's Roughneck Red 29 Com Well No. 1 to be located at a standard gas well location 1480 feet from the North line and 1980 feet from the West line of said Section 29. The proposed surface location for the well is on a tract covered by a lease from Chase Farms to Chase Oil Corporation that contains a no surface occupancy provision. This provision was included in the lease because Chase Farms plans to plant a pecan orchard on this acreage. Chase Oil Corporation does not oppose the pooling of this acreage. Chase is Farms is only interested in having the surface location for the well on portions of the spacing unit other than surface location proposed by Preston.
