RE: New Drill
Armijo Trust 27 #1 Well
E/2 Section 27-10N-1W
Bernalillo County, New Mexico

Dear Working Interest Owner:

XTO Energy Inc. (XTO) hereby proposes to drill the above captioned well to a depth of 6,080' to test the Morrison Formation. XTO proposes to core the well from the top of the Gibson Coal measures to the base of the Gibson Coal measures at depths of approximately 3,050 feet to 4,075 feet. We anticipate the coal to be productive and we will be looking at all zones in the well. Our proposed location is in the SE/4 SE/4 of Section 27.

Our records indicate that you are an unleased mineral owner. Should you elect not to participate in the drilling of this well, XTO offers to lease your minerals for \$10.00 per acre bonus with a 1/8th royalty for a term of five (5) years. Should you wish to join in the drilling of this well with your interest, I have enclosed an AFE for your review and execution. Our AFE provides for a dry hole cost of \$482,839 and a completed well cost of \$557,689. I will forward you a Joint Operating Agreement for your review and execution upon your election to join in the drilling of this well.

XTO is prepared to file a force pooling application with the NMOCD should you fail to make an election in the next several weeks. XTO is also prepared to drill this well as soon as all of the permits can be obtained. Please feel free to contact me at (817) 885-2454, with any questions you may have.

Sincerely,
XTO ENERGY INC.

RE: New Drill
Armijo Trust 27 #1 Well
SE/4 Section 27-10N-1W
Bernalillo County, New Mexico

Dear Working Interest Owner:

XTO Energy Inc. (XTO) recently proposed the drilling of the above captioned well to you as an E/2 unit. It has been determined that gas wells drilled in this area would be spaced on 160 acres rather than the 320 acres that XTO proposed. This change in spacing does not change any of the cost or depths that we propose to drill. The only change would be the amount of acreage that would be dedicated to this unit. XTO would still offer to lease all of your interest in and out of this 160 acre unit.

XTO is filing a force pooling application with the NMOCD on June 15, 2004. XTO is also prepared to drill this well as soon as all of the permits can be obtained. Please feel free to contact me at (817) 885-2454, with any questions you may have.

Sincerely,
XTO ENERGY INC.
