**APPLICATION OF THE NEW MEXICO OIL CONSERVATION DIVISION,
THROUGH THE SUPERVISOR OF DISTRICT I, FOR AN ORDER REQUIRING
SABA ENERGY OF TEXAS, INC. TO BRING SIX WELLS INTO COMPLIANCE
WITH 19.15.4.201 NMAC, ASSESSING APPROPRIATE CIVIL PENALTIES,
AND AUTHORIZING THE DIVISION TO PLUG SAID WELLS AND FORFEIT
THE APPLICABLE SECURITY IN DEFAULT OF COMPLIANCE BY THE
OPERATOR; LEA COUNTY, NEW MEXICO.**

**CASE NO. 13163
De Novo**

Affidavit of Jane Prouty

STATE OF NEW MEXICO)
) SS.
COUNTY OF SANTA FE)

Jane Prouty, being first duly sworn on oath, states as follows:

1. I am employed as the supervisor of production and permitting at the Santa Fe, New Mexico office of the Oil Conservation Division ("OCD").

2. My duties include maintaining records of oil and gas production and injection on wells located in New Mexico.

3. The OCD's information on production and injection comes from monthly production reports filed by the well operators.

4. In 1993 the OCD began using the ONGARD (Oil and Natural Gas Administration and Revenue Database) to record oil and gas production and injection by well. Since 1993, production and injection data from the monthly production reports filed by operators has been entered into ONGARD.

5. When the OCD began using the ONGARD system in 1993, it converted existing production and injection data into ONGARD for those wells that were not shown as "plugged" according to the OCD records available at that time. The pre-1993 production and injection information for each such well was totaled and appears in ONGARD as 1992 production or injection for that well.

6. I have researched the ONGARD records for production and injection information regarding the six wells at issue in the above-captioned case:

Saba State #001, API 30-025-33726
San Simon 5 State #001, API 30-025-27564
San Simon 5 State #002, API 30-025-28480

A printout of the ONGARD pages regarding these wells is attached as Exhibit A to this affidavit.

7. The printout shows, for each well, by production month and year, the production of gas, oil and water reported, and the amount of injection reported. If a month and year appear in the report that means that this well was reported on a C-115 with the volumes as indicated. If a month and year do not appear, the well was not reported on the C-115, or no C-115 was submitted to the OCD.

8. None of the six wells has reported production during at least the past two years.

9. The production reports for the six wells at issue show "Saba Energy of Texas Inc." as the operator of the wells.

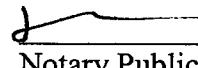

10. I have reviewed OCD records to determine if "Saba Energy of Texas Inc." is the operator of record for any other wells in New Mexico. OCD's Risk-Based Data Management System ("RBDMS") shows that Saba Energy of Texas Inc. is also listed as the operator of record for the Coyote State #001, API 30-025-31136. That well is identified as plugged and abandoned. A printout of the RBDMS screen listing the wells for which Saba Energy of Texas Inc. is the operator of record is attached as Exhibit B.

THIS CONCLUDES MY AFFIDAVIT.
