Re: New Mexico Oil Conservation Division Case 13153:
Application of Pride Energy Company for cancellation of a drilling permit
and re-instatement of a drilling permit, an emergency order halting
operations, and compulsory pooling, Lea County, New Mexico.

Dear Ms. Davidson;

Pursuant to my letter of August 9, 2004, I enclose a section of the well log for the Limbaugh "AYO" State Well No. 1 (State "X" Well No. 1). This log section replaces the log for this well that is shown on the right side of the cross section previously filed by Yates. As noted in my letter of August 9th, the log on the original cross section was printed using the wrong scale.

Yates is preparing, and will have available at the hearing, a new cross section that correctly depicts all logs on the cross section.

Very truly yours,

William F. Carr
Attorney for Yates Petroleum Corporation
