## NOTICE

To: Eulalio Medrano and Lee Roy Lujan, or their successors: Chi Energy, Inc. has filed an application with the New Mexico Oil Conservation Division (Case No. 13380) seeking an order pooling all mineral interests from the surface to the base of the Morrow formation underlying the N1/2 of Section 33, Township 22 South, Range 27 East, N.M.P.M., Eddy County, New Mexico, to form a standard 320-acre gas spacing and proration unit for any and all formations developed on 320-acre spacing within that vertical extent. The unit will be dedicated to the Otis 33 Well No. 2, to be re-entered at a previously approved unorthodox gas well location in the NE1/4 NW1/4 (Unit C) of Section 33. Also to be considered will be the cost of re-entering and completing the well and the allocation of the cost thereof, as well as actual operating costs and charges for supervision, designation of Chi Operating, Inc. as operator of the well, and a 200% charge for the risk involved in re-entering and completing the well. This matter will be heard at 8:15 a.m. on Thursday, January 6, 2005 at the Division's offices at 1220 South St. Francis Drive, Santa Fe, New Mexico 87505. As an interest owner in the well unit, you have the right to enter an appearance and participate in the case. Failure to appear will preclude you from contesting this matter at a later date. The unit is located approximately 1 1/2 miles west of Otis, New Mexico.
