**Re: Case No. 14583: Application of Farleigh Oil Properties for a compliance order against SWEPI LP and Shell Exploration and Production Company, Guadalupe County, New Mexico.**

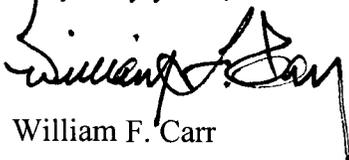

Dear Mr. Ezeanyim:

A meeting of all legal counsel in the above-referenced case was held at the Oil Conservation Division on April 5, 2011. At the time, the need was discussed for additional information on choke sizes used during the tests on the wells that are the subject of this case. SWEPI LP is preparing a revised Form C-105 for each well that will break out the test data on these wells by choke size.

It is not possible to have this information to present by April 14th and we therefore request that the examiner hearing scheduled on that date be continued. A two week continuance to the April 28th docket will allow sufficient time for SWEPI LP to prepare revised forms and attachments and to provide this information to all parties.

Your attention to this request for a continuance is appreciated.

Very truly yours,

  
William F. Carr
