CHISHOLM'S STATEMENT OF CASE

The above-referenced cases concern contested operatorship between Chisholm Energy Operating, LLC and Great Western Drilling for acreage located in Section 34, Township 21 South, Range 34 East. Chisholm will present evidence establishing that it has a higher committed working interest percentage, a more robust and comprehensive development plan, and more experience drilling horizontal wells in New Mexico.

In Case Nos. 15865-15868, Chisholm seeks orders creating four non-standard spacing and proration units and pooling all uncommitted interests in the Bone Spring formation underlying these units for the following acreage and proposed wells in Township 21 South, Range 34 East, NMPM, Lea County, New Mexico:

- (1) a 160-acre spacing unit comprised of the W/2 W/2 of Section 34, to be dedicated to the proposed **Grama Ridge East 34 State 3BS No. 2H Well**, which will be drilled horizontally from a surface location in the NW/4 NW/4 (Unit D) to a standard bottom hole location in the SW/4 SW/4 (Unit M) of Section 34;
- (2) a 160-acre spacing unit comprised of the E/2 W/2 of Section 34, to be dedicated to the proposed **Grama Ridge East 34 State 3BS No. 3H Well**, which will be drilled horizontally from a surface location in the NW/4 NW/4 (Unit D) to a standard bottom hole location in the SE/4 SW/4 (Unit N) of Section 34;

(3) a 160-acre spacing unit comprised of the W/2 E/2 of Section 34, to be dedicated to the proposed **Grama Ridge East 34 State 2BS No. 8H Well**, which will be drilled horizontally from a surface location in the SE/4 SE/4 (Unit P) to a standard bottom hole location in the NW/4 NE/4 (Unit B) of Section 34; and

(4) a 160- acre spacing unit comprised of the E/2 E/2 of Section 34, to be dedicated to the proposed **Grama Ridge East 34 State 2BS No. 9H Well**, which will be drilled horizontally from a surface location in the SE/4 SE/4 (Unit P) to a standard bottom hole location in the NE/4 NE/4 (Unit A) of Section 34.

The completed interval for each well will remain within the 330-foot standard offset required by the Statewide Rules set forth in 19.15.15 NMAC.

In Case Nos. 15875 and 15876, Great Western counter-proposes compulsory pooling for only two of four proposed non-spacing units: the W/2 W/2 of Section 34 and the E/2 E/2 of Section 34. Chisholm objects to Great Western's development plan and proposals on the basis that Great Western controls a smaller working interest percentage in the acreage and has an incomplete plan to develop said acreage. Chisholm's development plan is also more efficient and economic.

CHISHOLM'S PROPOSED EVIDENCE

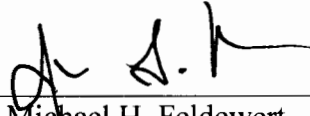

WITNESS Name and Expertise	ESTIMATED TIME	EXHIBITS
Luke Shelton– Landman	Approx. 20	Approx. 14
Bill Francis– Geologist	Approx. 10	Approx. 4
Tyler Lane or Brad Burke, Engineer	Approx. 10	Approx. 4
James Huling, Engineer	Approx. 10	Approx. 4

PROCEDURAL MATTERS

Chisholm respectfully requests that all six cases be consolidated for hearing.

Respectfully submitted,

HOLLAND & HART LLP
