DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES
OIL CONSERVATION DIVISION**

**APPLICATION OF NOVO OIL & GAS
NORTHERN DELAWARE, LLC
FOR COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO.**

CASE NO. 16284

AMENDED APPLICATION

NOVO Oil & Gas Northern Delaware, LLC ("NOVO"), through its undersigned attorneys, hereby files this amended application with the Oil Conservation Division pursuant to the provisions of N.M. Stat. Ann. §70-2-17, for an order pooling all uncommitted mineral interests in the Bone Spring formation underlying Lot 1 (NE/4NE/4), SE/4NE/4, and E/2SE/4 of Section 5, Township 23 South, Range 29 East, Eddy County, New Mexico. In support of its application, NOVO states:

1. NOVO (OGRID 372920) is a wholly owned subsidiary of Novo Oil & Gas, LLC, a working interest owner in the subject acreage, and has the right to drill thereon.
2. NOVO proposes to dedicate the above-referenced spacing and proration unit as the 160.36 acre standard horizontal spacing and proration unit for the **Rana Salada Fed Com 5 23S 29E 2B #1H well** which will be horizontally drilled in the Culebra Bluff; Bone Spring, South Pool (15011) from a surface location in the NE/4NE/4 of Section 5, Township 23 South, Range 29 East, to a bottom hole location in the SE/4SE/4 of Section 5, Township 23 South, Range 29 East.
3. This well will be pad-drilled sequentially and batch completed with other wells which are the subject of separate Applications filed by NOVO currently pending before the Division.

4. The completed interval will be orthodox.
5. NOVO has sought and has been unable to obtain voluntary agreement for the development of these lands from all of the working interest owners in the subject spacing unit.
6. The pooling of interests will avoid the drilling of unnecessary wells, will prevent waste and will protect correlative rights.
7. As the proposed well will be simultaneously drilled and batch completed with other adjacent wells, NOVO requests an extension of the 120-day time period to drill and complete the wells provided by the standard pooling order.
8. In order to permit NOVO to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted mineral interests in this standard horizontal spacing and proration unit should be pooled and NOVO Oil & Gas Northern Delaware, LLC should be designated the operator of this proposed horizontal well and spacing unit.
9. Notice of this application is being given in accordance with Division rules.

WHEREFORE, NOVO requests that this application, as amended, be heard before an Examiner at the hearing to be held August 23, 2018, and, further, after notice and hearing as required by law, the Division enter an order:

A. Pooling all uncommitted mineral interests in the Bone Spring formation underlying Lot 1 (NE/4NE/4), SE/4NE/4, and E/2 SE/4 of Section 5, Township 23 South, Range 29 East, Eddy County, New Mexico;

B. Dedicating the **Rana Salada Fed Com 5 23S 29E 2B #1H well** to the standard horizontal spacing and proration unit for the Bone Spring formation comprised of Lot 1 (NE/4NE/4), SE/4NE/4, and E/2 SE/4 of Section 5, Township 23 South, Range 29 East, Eddy County, New Mexico;

- C. Providing an extension of the 120-day requirement to drill and complete the well;
- F. Designating NOVO Oil & Gas Northern Delaware, LLC operator of this standard horizontal spacing and proration unit and the horizontal well to be drilled thereon;
- G. Authorizing NOVO to recover its costs of drilling, equipping and completing this well;
- H. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- I. Imposing a 200% penalty for the risk assumed by NOVO in drilling and completing this well against any working interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,

BEATTY & WOZNIAK, P.C.
