Hello,

I am following up on the Cimarex Lea 7 Fed. Com 30 H well matter that was heard on September 6, 2018. You asked that I follow up with Cimarex regarding three things, which I lay out below with the responses:

- 1) Geology cross-section exhibit: Mr. McMillan requested that we provide a revised exhibit with a noticeable or easily identifiable arrow indicating the target zone. I have attached a revised set of exhibits—only exhibit 2-C is different. It has a green arrow showing the target zone along with a red line indicating the well.
- 2) I confirmed with the landman that the interest ownership is the same in both the Bone Spring and the Wolfcamp formation.
- 3) Lowe Family, LTD: Mr. Brooks asked if Cimarex had undertaken any review of the Texas corporation records to see if there is a different address for this entity. As I discussed with Mr. Brooks today, I did find a different address on the Texas SOS website. I forwarded that address to Cimarex' landman who informed me that he was aware of that address and had sent letters to that address in the past, and had received no response. I also mentioned to Mr. Brooks that other individuals with the last name of "Lowe" had received the notice we sent out, as indicated by our mailing receipts. I also told Mr. Brooks that the address that I first found for the Lowe Family Ltd. when I searched the internet is the address to which we send the mailing. Based on this discussion, Mr. Brooks and I agreed that I had satisfied his request. If I am wrong about that, please let me know.

Thanks much and please let me know if you need any other information from me or if a different format is preferable.

Deana
