Mike,

Here are the Second Amended Affidavits of both our engineer and our geologist. Both affidavits reference the Pogo well in their exhibits, as does the geologist's depth severance description. Since we're referencing the same well throughout, I believe these affidavits reflect the internal consistency you were looking for, and I hope they meet with your satisfaction.

Sorry again for the many iterations. I greatly appreciate the time you took working with me to help get this right.

Can you have these affidavits put in the case file, or should I send a runner over with hard copies for filing with Florene/Kathleen? Either way is of course fine with me.

Thanks,
Seth
