CASE NOS. 16394, 16395

**SECOND AFFIDAVIT OF BRANDON FORTEZA
IN SUPPORT OF CASE NOS. 16394 AND 16395**

Brandon Forteza, of lawful age and being first duly sworn, declares as follows:

1. My name is Brandon Forteza. I work for Ameredev Operating, LLC
("Ameredev") as a Landman.
2. I have previously testified before the New Mexico Oil Conservation Division as
an expert witness in petroleum land matters. My credentials as a petroleum landman have been
accepted by the Division and made a matter of record.
3. I am familiar with the two applications filed by Ameredev in these consolidated
cases, and I am familiar with the status of the lands in the subject areas.
4. None of the proposed pool parties in these cases has indicated opposition, and
therefore I do not expect any opposition at the hearing.
5. Ameredev originally presented these cases by affidavits on September 6, 2018.
Since the hearing, Ameredev filed amended applications to include proximity tracts to the
horizontal spacing units in both Case Nos. 16394 and 16395.
6. In Case No. 16394, Ameredev is seeking an Order (a) pooling all uncommitted
mineral interests in the Bone Spring formation underlying the 640.96-acres, more or less, spacing
unit comprised of the W/2 W/2 of Section 5 and the W/2 W/2 of Section 8, the E/2 E/2 of

Section 6 and the E/2 E/2 of Section 7, Township 25 South, Range 36 East, NMPM, Lea County, New Mexico; and (b) dedicating the spacing unit for the proposed **Pine Straw Fed Com 25 36 08 No. 091H Well**.

7. In Case No. 16395, Ameredev is seeking an Order (a) pooling all uncommitted mineral interests in the Wolfcamp formation underlying the 640.96-acres, more or less, spacing unit comprised of the W/2 W/2 of Section 5 and the W/2 W/2 of Section 8, the E/2 E/2 of Section 6 and the E/2 E/2 of Section 7, Township 25 South, Range 36 East, NMPM, Lea County, New Mexico; and (b) dedicating the spacing unit for the proposed **Pine Straw Fed Com 25 36 08 No. 101H Well**.

8. Ameredev has filed amended Form C-102s with the Division for the proposed Pine Straw Fed Com 25 36 08 No. 091H Well and the proposed Pine Straw Fed Com 25 36 08 No. 101H Well. Those C-102s are attached hereto as **Ameredev Exhibit A-1** and **Ameredev Exhibit A-2**. The C-102s show that Pool Codes 98150 and 33813 have been assigned.

9. Incorporating the proximity tracts, the completed intervals for the proposed wells will comply with the Division's setback requirements.

10. **Ameredev Exhibit A-3** is an exhibit prepared by me that identifies the tracts of land comprising spacing unit in Case No. 16394. This space unit includes federal and fee land. This exhibit shows the interest owners and the percentage of their interest by tract. A unit recapitulation, showing the percentage of ownership interests in the spacing unit, is also included on the exhibit. Ameredev is seeking to pool the interest owners denoted by an asterisk.

11. **Ameredev Exhibit A-4** is an exhibit prepared by me that identifies the tracts of land comprising the proposed spacing and proration unit in Case No. 16395. This proposed spacing and proration unit includes federal and fee land. This exhibit shows the interest owners

and the percentage of their interest by tract. A unit recapitulation, showing the percentage of ownership interests in the proposed spacing and proration unit, is also included on the exhibit. Ameredev is seeking to pool the interest owners denoted by an asterisk.

12. There are no depth severances.

13. Ameredev is seeking to pool all uncommitted working interest and unleased mineral owners. There are overriding royalty interest owners, but the instruments creating the overrides allow Ameredev to pool.

14. Ameredev sent a well proposal letter to the working interest owners and unleased mineral owners in Case No. 16394. An AFE was included with the well proposal letter. The costs reflected in the AFE are consistent with what other operators have incurred for drilling similar horizontal wells in the area. A copy of the well proposal letter, along with the AFE, is attached as **Ameredev Exhibit A-5**.

15. Ameredev sent a well proposal letter to the working interest owners and unleased mineral owners in Case No. 16395. An AFE was included with the well proposal letter. The costs reflected in the AFE are consistent with what other operators have incurred for drilling similar horizontal wells in the area. A copy of the well proposal letter, along with the AFE, is attached as **Ameredev Exhibit A-6**.

16. Ameredev has made an estimate of overhead and administrative costs for drilling and producing the proposed wells. It is \$7,000/month while drilling, and \$700/month while producing. These costs are consistent with what other operators are charging in this area for these types of wells. Ameredev respectfully requests that these administrative and overhead costs be incorporated into any orders entered by the Division in these consolidated cases.

17. In my opinion, Ameredev has made good faith efforts to reach an agreement with the parties it is seeking to pool. If Ameredev reaches an agreement with any of the proposed pool parties before the Division enters an order, I will let the Division know that Ameredev is no longer seeking to pool those parties.

18. I provided the law firm of Holland & Hart LLP a list of names and addresses for the proposed pool parties. The names and last known addresses are included in a separate exhibits marked as Exhibit C. In compiling these notice lists, Ameredev conducted a diligent search of all public records in the county where the proposed wells are located and of phone directories, including computer searches. Not all parties are locatable, but notice was provided through publication in the newspaper of record in Lea County.

19. **Ameredev Exhibit A-1 through A-6** were either prepared by me or compiled under my direction and supervision.

CASE NOS. 16394, 16395

**SECOND AFFIDAVIT OF PARKER FOY IN SUPPORT OF
CASE NOS. 16394 and 16395**

Parker Foy, of lawful age and being first duly sworn, declares as follows:

1. My name is Parker Foy. I work for Ameredev Operating, LLC as a Geologist.
2. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum geology. My credentials as a petroleum geologist have been accepted by the Division and made a matter of record.
3. I am familiar with the two amended applications filed by Ameredev in these consolidated cases, and I have conducted a geologic study of the lands in the subject areas.
4. With Case No. 16394, Ameredev is targeting the Bone Spring formation.
5. **Ameredev Exhibit B-1** is a locator map for Case No. 16394. It shows Ameredev's acreage in yellow and the path of the proposed wellbore for the proposed **Pine Straw Fed Com 25 36 08 No. 091H Well** with the surface hole and bottom hole locations.
6. **Ameredev Exhibit B-2** is a subsea structure map that I prepared for the top of the Bone Spring formation. The contour interval is 50 feet. The structure map shows the Bone Spring gently dipping to the southwest. The structure appears consistent across the proposed wellbore path. I do not observe any faulting, pinchouts, or other geologic impediments to horizontal drilling.

7. **Ameredev Exhibit B-3** is a map showing the location of the wells used to create the stratigraphic cross-section in the next exhibit. These three wells from A to A' are representative of the geology in the area.

8. **Ameredev Exhibit B-4** is a stratigraphic cross-section that I prepared displaying open-hole logs run over the Bone Spring from three representative wells denoted from A to A'. For each well in the cross-section, Ameredev Exhibit B-4 shows the following logs: gamma ray, resistivity, and porosity. The proposed target interval is labeled and marked. The logs in the cross-section demonstrate that the target interval, within the Bone Spring, is consistent in thickness, across the entire proposed spacing unit.

9. With Case No. 16395, Ameredev is targeting the Wolfcamp formation.

10. **Ameredev Exhibit B-5** is a locator map for Case No. 163965. It shows Ameredev's acreage in yellow and the path of the proposed wellbore for the proposed **Pine Straw Fed Com 25 36 08 No. 101H Well** with the surface hole and bottom hole locations.

11. **Ameredev Exhibit B-6** is a subsea structure map that I prepared for the top of the Wolfcamp formation. The contour interval is 100 feet. The structure map shows the Wolfcamp gently dipping to the southwest. The structure appears consistent across the proposed wellbore path. I do not observe any faulting, pinchouts, or other geologic impediments to horizontal drilling.

12. **Ameredev Exhibit B-7** is a map showing the location of the wells used to create the stratigraphic cross-section in the next exhibit. These three wells from A to A' are representative of the geology in the area.

13. **Ameredev Exhibit B-8** is a stratigraphic cross-section that I prepared displaying open-hole logs run over the Wolfcamp from three representative wells denoted from A to A'. For

each well in the cross-section, Ameredev Exhibit B-8 shows the following logs: gamma ray, resistivity, and porosity. The proposed target interval is labeled and marked. The logs in the cross-section demonstrate that the target interval, within the Wolfcamp, is consistent in thickness, across the entire proposed spacing unit.

14. Based on my geologic study of the areas in both consolidated cases, I have not identified any geologic impediments to drilling horizontal wells in the area.

15. In my opinion, each quarter-quarter section will be productive and contribute more-or-less equally to each 40-acre unit comprising the spacing and proration units.

16. In my opinion, horizontal drilling will be the most efficient method to develop this acreage, to prevent the drilling of unnecessary wells, and to result in the greatest ultimate recovery.

17. In my opinion, the granting of Ameredev's two amended applications in these consolidated cases will be in the best interest of conservation, the prevention of waste, and protection of correlative rights.

CASE NO. 16395 (amended and re-advertised)

AMENDED APPLICATION

Ameredev Operating, LLC ("Ameredev") (OGRID No. 372224), through its undersigned attorneys, hereby files this amended application with the Oil Conservation Division pursuant to the provisions of N.M. Stat. Ann. § 70-2-17, for an order pooling all uncommitted interest in the Wolfcamp formation in the 640.96-acre spacing unit comprised of the W/2W/2 of Section 5, the W/2W/2 of Section 8, the E/2E/2 of Section 6 and the E/2E/2 of Section 7, Township 25 South, Range 36 East, NMPM, Lea County, New Mexico. In support of its application, Ameredev states:

1. Ameredev is a working interest owner in the proposed horizontal spacing unit and has the right to drill thereon.
2. Ameredev proposes to dedicate the above-referenced spacing unit to the proposed **Pine Straw Fed Com 25 36 08 No. 101H Well**. This well will be horizontally drilled from a surface location in the SW/4 SW/4 (Unit M) of Section 8 to a bottom hole location in the NW/4 NW/4 (Lot 4) of Section 5.
3. Pursuant to NMAC 19.15.16.15(B)(1)(b), Ameredev will incorporate the proximity tracts into its horizontal spacing unit. Incorporating the proximity tracts, the completed interval for the well will remain within the standard offset required by the statewide rules set forth in 19.15.15 NMAC.

4. Ameredev has sought and been unable to obtain voluntary agreement for the development of these lands from all of the working interest owners in the subject spacing unit.

5. The pooling of interests will avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.

6. In order to permit Ameredev to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted interests in the horizontal spacing unit should be pooled and Ameredev Operating, LLC should be designated the operator of this proposed horizontal well and spacing unit.

WHEREFORE, Ameredev requests that this amended application be set for hearing before an Examiner of the Oil Conservation Division on January 24, 2019, and, after notice and hearing as required by law, the Division enter an order:

- A. Pooling all uncommitted interests in the horizontal spacing unit;
- B. Designating Ameredev Operating, LLC operator of this spacing unit and the horizontal well to be drilled thereon;
- C. Authorizing Ameredev to recover its costs of drilling, completing, and equipping the well;
- D. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- E. Imposing a 200% penalty for the risk assumed by Ameredev in drilling and completing the well against any working interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,

HOLLAND & HART LLP
