EDDY COUNTY, NEW MEXICO

**STATE OF NEW MEXICO
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT
OIL CONSERVATION DIVISION**

**APPLICATION OF OXY USA INC. FOR COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO.**

Case No. 20225

AFFIDAVIT OF MATTHEW COLE

Matthew Cole, being of lawful age and being first duly sworn, states as follows:

1. My name is Matthew Cole and I am employed by OXY USA Inc. ("OXY") as a Landman. I have previously testified before the Oil Conservation Division and had my credentials as an expert in petroleum land matters accepted and made a matter of record.

2. I am familiar with the application filed by OXY in this matter and familiar with the status of the lands in the subject area.

3. OXY seeks an order pooling uncommitted interests in the Bone Spring formation underlying an 800-acre standard horizontal spacing unit comprised of the SE/4 of Section 18 and the E/2 of Sections 19 and 30, Township 23 South, Range 31 East, NMPM, Eddy County, New Mexico. This is a wildcat area for the Bone Spring formation.

4. **OXY Exhibit 1-A** is a plat showing the six tracts of land comprising the proposed horizontal spacing unit and the proposed initial wells. The subject acreage consists of federal lands.

5. **OXY Exhibit 1-B** contains the C-102 plats for the four wells to be initially dedicated to the proposed horizontal well spacing unit: The **Precious 30 18 Fed Com #4H**, the **Precious 30 18 Fed Com #5H**, the **Precious 30 18 Fed Com #6H**, and the **Precious 30 18 Fed Com # 9H**. The proposed **Precious 30 18 Fed Com #5H** will be drilled within 330 feet of the quarter-quarter line separating the E/2 E/2 from the W/2 E/2 of Sections 18, 19 and 32 to allow

inclusion of this acreage into a standard 800-acre standup horizontal spacing unit.

6. **OXY Exhibit 1C** identifies the ownership in the proposed spacing unit and the six tracts of lands within the proposed spacing unit. Oxy owns 95% of the subject acreage and seeks to pool uncommitted working interest owners in Tract 2. Oxy also seeks to pool the overriding royalty interests shown on the third page of this exhibit. Oxy has been able to locate an address for each of these interest owners.

7. **OXY Exhibit 1D** contains the well proposal letter and AFE for the Precious 4H, 5H and 6H wells sent in September of 2018 and the well proposal letter and AFE for the Precious 9H well sent in November of 2018. In addition to sending these well proposal letters, Oxy representatives have contacted or attempted to contact each of these working interest owners to reach a voluntary agreement. None of these working interest owners have objected to Oxy proceeding with this pooling application.

8. The costs reflected in the AFE are consistent with what OXY and other operators have incurred for drilling and completing similar horizontal wells in this formation.

9. No ownership depth severances exist in the proposed spacing unit and there are no unleased mineral interests in the subject acreage.

10. OXY has estimated the overhead and administrative costs at \$7500.00 per month while drilling and \$750.00 per month while producing. These costs are consistent with what other operators are charging in this area for similar wells.

11. Oxy Exhibits 1A through 1D were either prepared by me or compiled under my direction and supervision.

FURTHER AFFIANT SAYETH NOT

Matthew Cole

STATE OF TEXAS)

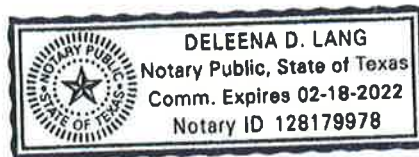

COUNTY OF Harris)

SUBSCRIBED and SWORN to before me this 6th day of February,
2019 by Matthew Cole.

Re: **Three (3) Well Proposals – Precious 30 18 Fed Com # 4H, 5H and 6H**
S/2 Section 18, all of Sections 19 & 30, Township 23 South, Range 31 East
Eddy County, New Mexico

Ladies and Gentlemen,

OXY USA Inc. ("OXY") hereby proposes the drilling and completion of the following three wells:

- Precious 30 18 Fed Com #4H (9880' TVD, 22,388' MD)
- Precious 30 18 Fed Com #5H (9880' TVD, 22,388' MD)
- Precious 30 18 Fed Com #6H (9880' TVD, 22,388' MD)

These wells will be drilled from surface locations along the north line of Section 31 and have bottom-hole locations in the S/2 of Section 18, Township 23 South, Range 31 East, N.M.P.M., Eddy County, New Mexico. All wells will have an approximate 12,500-foot lateral drilled and completed in Bone Spring formation at the total vertical depth ("TVD") and measured depth ("MD") stated above.

The proposed operations include drilling and completing each well as approximate 2 ½ mile laterals in the Bone Spring formation. A detailed description of the total estimated cost to drill and complete the well is provided in the enclosed AFE's.

OXY is proposing to drill these wells under the terms of an AAPL Form 610 1989 Operating agreement naming OXY USA Inc. as operator. The proposed Operating Agreement contract area will cover the S/2 of Section 18 and all of Sections 19 and 30, T23S, R31E, NMPM, Eddy County, New Mexico as to the Bone Spring and Wolfcamp formations

If you would like to participate in the proposed operations, please execute and return one copy of this letter, the enclosed AFEs, and the JOA to my attention at the address shown above. In the event you do not wish to participate, OXY would be interested discussing a transaction to acquire your interest (via trade, term assignment, purchase, etc.).

If we do not receive a response in 30 days of the date of this letter, OXY will apply to the New Mexico Oil Conservation Division for compulsory pooling of your interest into a spacing unit for the proposed wells.

If you have any questions, or would like to discuss this proposal in more detail, please do not hesitate to call or e-mail.

Very truly yours,

OXY USA Inc.

Matthew Cole

Re: **Well Proposals – Precious 30_18 Fed Com # 9H**
E/2 Section 18, all of Sections 18, 19, & 30, Township 23 South, Range 31 East
Eddy County, New Mexico

Ladies and Gentlemen,

OXY USA Inc. ("OXY") hereby proposes the drilling and completion of the following the Precious 30_18 Fed Com #9H (10,030' TVD, 23,014' MD)

This well will be drilled from surface locations along the north line of Section 31 and have bottom-hole locations in the S/2 of Section 18, Township 23 South, Range 31 East, N.M.P.M., Eddy County, New Mexico with an approximate 12,500-foot lateral drilled and completed in the Bone Spring formation at the total vertical depth ("TVD") and measured depth ("MD") stated above.

The proposed operations include drilling and completing each well as approximate 2 ½ mile laterals in the Bone Spring formation. A detailed description of the total estimated cost to drill and complete the well is provided in the enclosed AFE's.

OXY is proposing to drill these wells under the terms of an AAPL Form 610 1989 Operating agreement naming OXY USA Inc. as operator. The proposed Operating Agreement contract area will cover the S/2 of Section 18 and all of Sections 19 and 30, T23S, R31E, NMPM, Eddy County, New Mexico as to the Bone Spring and Wolfcamp formations

If you would like to participate in the proposed operations, please execute and return one copy of this letter, the enclosed AFEs via the enclosed postage paid return envelope. In the event you do not wish to participate, OXY would be interested discussing a transaction to acquire your interest (via trade, term assignment, purchase, etc.).

If we do not receive a response in 30 days of the date of this letter, OXY will apply to the New Mexico Oil Conservation Division for compulsory pooling of your interest into a spacing unit for the proposed well if you have not executed the mentioned JOA to date.

If you have any questions, or would like to discuss this proposal in more detail, please do not hesitate to call or e-mail.

Very truly yours,

OXY USA Inc.

A handwritten signature in dark ink, appearing to read "Matthew Cole", is written over a light blue horizontal line.

Matthew Cole

Enclosures

OIL CONSERVATION DIVISION**

**APPLICATIONS OF OXY USA INC. FOR COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO.**

Case No. 20225

AFFIDAVIT OF DANIEL BURNETT

Daniel Burnett, being of lawful age and being first duly sworn, states as follows:

1. My name is Daniel Burnett and I am employed by OXY USA Inc. ("OXY") as a geologist. I am familiar with the application filed by OXY in this matter and conducted a geologic study of the Bone Spring formation underlying the subject acreage.

2. I hold a bachelor's degree in geology from Texas A & M and master's degree in petroleum geology from the University of Houston. I have been employed by Oxy as geologist for four years and my responsibilities have included the Delaware Basin of New Mexico and Texas. I have been a member of the American Association of Petroleum Geologists since 2011.

3. OXY has proposed wells to target the Second Bone Spring interval underlying the proposed spacing unit. **OXY Exhibit 2A** contains a structure map that I prepared for the Second Bone Spring interval with contour lines every 50 feet. The wellbore paths for the proposed wells are denoted by green lines in Sections 18, 19 and 30. Structure control points are identified and reflect that the interval dips gently to the East-Southeast. I do not observe any faulting, pinch outs, or other geologic impediments to developing this targeted interval with horizontal wells.

4. **OXY Exhibit 2A** also identifies the wells that I used to construct a North to South stratigraphic cross-section for the Second Bone Spring interval. The five wells utilized are shown in red. I chose these wells because they contain good logs and are representative of the geology of the area.

5. **COG Exhibit 2B** contains the stratigraphic North to South cross section for the Second Bone Spring interval using the representative wells depicted in red on Exhibit 2A. Each well in the cross-section contains gamma ray and resistivity logs. The proposed targets within the Second Bone Spring interval for the four proposed wells are identified with a black line. This cross-section demonstrates that the targeted interval is present and continuous across the subject acreage.

6. The north to south orientation for the proposed wells in the Second Bone Spring interval will place the wells perpendicular to the known stress direction in the subject area and is appropriate to efficiently and effectively develop the targeted interval under the subject acreage.

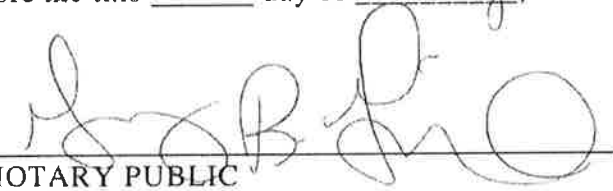

7. My geologic study demonstrates that the Second Bone Spring interval underlying the proposed horizontal spacing unit is suitable for development with horizontal wells, that the acreage comprising the proposed horizontal spacing unit will contribute more-or-less proportionately to the production from the wellbores, and the granting of this applications is in the best interest of conservation, the prevention of waste, and protection of correlative rights.

FURTHER AFFIANT SAYETH NOT.

Daniel Burnett

Ladies & Gentlemen:

This letter is to advise you that OXY USA Inc. has filed the enclosed application with the New Mexico Oil Conservation Division. A hearing has been requested before a Division Examiner on February 7, 2019, and the status of the hearing can be monitored through the Division's website at <http://www.emnrd.state.nm.us/ocd/>. Division hearings will commence at 8:15 a.m. in Porter Hall at the Oil Conservation Division's Santa Fe Offices located at 1220 South Saint Francis Drive, Santa Fe, New Mexico 87505. You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Parties appearing in cases are required by Division Rule 19.15.4.13.B to file a Pre-hearing Statement four business days in advance of a scheduled hearing. This statement must be filed at the Division's Santa Fe office at the above specified address and should include: the names of the parties and their attorneys; a concise statement of the case; the names of all witnesses the party will call to testify at the hearing; the approximate time the party will need to present its case; and identification of any procedural matters that are to be resolved prior to the hearing.

If you have any questions about this matter, please contact Matthew Cole at (713) 366-5928 or Matthew_Cole@oxy.com.

Sincerely,

Adam G. Rankin

BEFORE THE OIL CONSERVATION DIVISION
Santa Fe, New Mexico
Exhibit No. 4
Submitted by: **OXY USA, INC.**
Hearing Date: February 7, 2019
Case Nos. 20225

**STATE OF NEW MEXICO
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT
OIL CONSERVATION DIVISION
SANTA FE, NEW MEXICO**

The State of New Mexico through its Oil Conservation Division hereby gives notice pursuant to law and the Rules and Regulations of the Division of the following public hearing to be held at 8:15 A.M. on **February 7, 2019**, in the Oil Conservation Division Hearing Room at 1220 South St. Francis, Santa Fe, New Mexico, before an examiner duly appoint for the hearing. If you are an individual with a disability who is in need of a reader, amplifier, qualified sign language interpreter, or any other form of auxiliary aid or service to attend or participate in the hearing, please contact: Florene Davidson at 505-476-3458 or through the New Mexico Relay Network, 1-800-659-1779 by **January 28, 2019**. Public documents, including the agenda and minutes, can be provided in various accessible forms. Please contact Florene Davidson if a summary or other type of accessible form is needed.

**STATE OF NEW MEXICO TO:
All named parties and persons
having any right, title, interest
or claim in the following case
and notice to the public.**

(NOTE: All land descriptions herein refer to the New Mexico Principal Meridian whether or not so stated.)

Case No. 22205: Application of OXY USA Inc. for compulsory pooling, Eddy County, New Mexico. Applicant in the above-styled cause seeks order pooling all uncommitted interests in the Bone Spring formation within a proposed 800-acre, more or less, horizontal well spacing unit comprised of the SE/4 of Section 18 and the E/2 of Sections 19 and 30, Township 23 South, Range 31 East, NMPM, Eddy County, New Mexico. OXY proposes to dedicate the above-referenced spacing unit, including the adjacent proximity tracts, to four proposed wells: the **Precious 30 18 Fed Com #4H**, the

Precious 30 18 Fed Com #5H, the Precious 30 18 Fed Com #6H, and the Precious 30 18 Fed Com #9H. The Precious 30 18 Fed Com #4H will be horizontally drilled from a surface location in the NW/4 NE/4 (Unit B) of Section 31, Township 23 South, Range 31 East, to a standard bottom-hole location in the NW/4 SW/4 (Unit J) of Section 18, Township 23 South, Range 31 East. The Precious 30 18 Fed Com #5H will be horizontally drilled from a surface location in the NE/4 SE/4 (Unit A) of Section 31, Township 23 South, Range 31 East, to a standard bottom-hole location in the NE/4 SE/4 (Unit I) of Section 18, Township 23 South, Range 31 East. The Precious 30 18 Fed Com #6H will be horizontally drilled from a surface location in the NE/4 SE/4 (Unit A) of Section 31, Township 23 South, Range 31 East, to a standard bottom-hole location in the NE/4 SE/4 (Unit I) of Section 18, Township 23 South, Range 31 East. The Precious 30 18 Fed Com #9H will be horizontally drilled from a surface location in the NW/4 SE/4 (Unit B) of Section 31, Township 23 South, Range 31 East, to a standard bottom-hole location in the NW/4 SE/4 (Unit J) of Section 18, Township 23 South, Range 31 East. Incorporating the proximity tracts, the completed interval for each well will be at a standard location. Also, to be considered will be the cost of drilling and completing said wells and the allocation of the cost thereof as well as actual operating costs and charges for supervision, designation of OXY USA Inc. as operator of the wells and a 200% charge for risk involved in drilling said wells. Said area is located approximately 11 miles east of Loving, New Mexico.
