Attachments: image001.png

Hello Kevin,
You are asking for data from 1/1/2002 to 4/1/2005 as missing from the flood.
I found storage reports for this project dating back to Oct 2003 – so we may be missing 2002 and the first 10 months of 2003.
But we will continue to look and will examine our process to ensure better data retention.

The OCD has scanned in your gas storage reports into the related Case files for the case that permitted the storage project.
We also sometimes store the data in specific Well Files.
The link to find any of this OCD online data is: <http://ocdimage.emnrd.state.nm.us/imaging/>

In particular, here's where we stored the data for your project back to Oct 2003, view the thumbnails at this link:
Case No. 14518
<http://ocdimage.emnrd.state.nm.us/imaging/CaseFileView.aspx?CaseNo=14518&FilingDate=6/22/2010%2012-00-00%20AM>

The original Case data is here – some very nice reservoir data in this:
Case No. 4895 which was one of the original cases processed in 1973
<http://ocdimage.emnrd.state.nm.us/imaging/CaseFileView.aspx?CaseNo=4895&FilingDate=11/25/1971%2012-00-00%20AM>

We sometimes store the data into the individual well files – please look through all the injection well files in your project on our web site.
Well File for 30-025-21336, for example, has some of the most recent data.
<http://ocdimage.emnrd.state.nm.us/imaging/WellFileView.aspx?RefType=Wf&RefID=30025213360000>

Since there is BLM and State Land Office lands involved, those agencies may have something retained (contacts -)
Anchor Holm, P.E. at the State Land Office in Santa Fe
James Glover at the BLM here in Santa Fe.
Regards,
Will Jones

Subject: RE: [EXT] Grama Ridge Monthly Gas Storage Report

Thanks for giving it the try....looks like there is still some data included. Let me digest and I may follow up with a question?

What happens to the actual reports that were sent in, just curious?

Thanks,

Kevin L. Ansell, P.E.

Subject: RE: [EXT] Grama Ridge Monthly Gas Storage Report

Looks as if we only have production on the producing wells. We don't have injection information for the time period requested. I checked the New Mexico Oil and Gas Engineering Committee production books for 2001 and 2002 and they had the wells in the book with no production or injection data. Our books here at the OCD only are up to 2002. I also went to the GoTech website and it is included below.

Subject: [EXT] Grama Ridge Monthly Gas Storage Report

Will,

I believe you talked to our tech Alfredo Araujo today.

We are trying to get past historical production by well. We have reconstructed the historical production by field back through primary. We are missing Well data however from 1/1/2002 through 4/1/2005. I believe Conoco-Phillips owned the field at that time. We have had some flooding (Harvey) and lost some files in the process however I don't know if we ever actually had the data by well for that period.

We file the attached report with your agency monthly.

If we could get our hands on those reports for the periods above, we would have exactly what we need. The wells in question are all included on that sheet. We have looked multiple times through the website and find those reports sporadically, but have not found the reports for the dates we need.

I am hopeful they exist somewhere. We could even send someone to make copies if necessary.

Please call or email should you have any questions.

Thanks,

Kevin L. Ancell, P.E.
