RE: Request for Time Extension to Complete the following Wells

Case No. 16461, R-20227 approved date November 13th, 2018

Applicant/Operator: COG Operating, LLC

Proposed Wells:

Huckleberry State Com Well No. 506H, API No. 30-025-45208, Spud: 03/25/19

Huckleberry State Com Well No. 507H, API No. 30-025-45209, Spud: yet to spud

Dear Ma'am:

The following pertains to your request received by the Division on April 10, 2019 and to the requirements in the captioned hearing order.

You have requested an extension of the time limit given by the Division in the captioned order in which to complete at least one of the captioned well(s) after commencement of drilling operations on the first of the proposed well(s). The No. 506H well was spud on March 25, 2019 and the No. 507H well has yet to spud.

The wells could not be completed due to scheduling issues. Accordingly, you are requesting a new completion date of December 30, 2019 to replace the existing time limit.

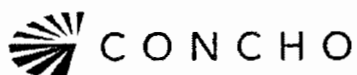

The operator is hereby granted an extension time limit to December 30, 2019 of the referenced well(s) to the date the C-104 is approved for at least one of the wells. All other provisions of this order remain in full force and effect.

Sincerely,

Adrienne Sandoval
Director

Re: Order Nos. R-20224 (Case No. 16458), R-20225 (Case No. 16459), R-20226 (Case No. 16460), R-20227 (Case No. 16461) Applications of COG Operating LLC for compulsory pooling, Lea County, New Mexico.

Dear Ms. Sandoval:

The above-referenced Division Orders granted COG Operating LLC's applications for compulsory pooling on November 13th, 2018. The orders authorized the drilling of COG's Huckleberry State Com Well Nos. 501H-507H at locations in Section 22 and Section 15, Township 21 South, Range 33 East, Lea County, New Mexico. Copies of the orders are attached for your convenience.

Ordering Paragraph 6 of each order requires COG to drill and complete the well within 120 days or the order will terminate unless COG obtains a time extension from the Division Director for good cause shown. COG is pad drilling and completing these wells. COG is currently drilling the wells and believes it will release the drilling rigs in late May or early June 2019. Due to scheduling issues, completion operations will begin in mid-October and Concho estimates completion operations to be concluded in late November or early December 2019. Accordingly, COG respectfully requests until December 30, 2019 to complete the wells.

Thank you for your time and attention to this matter.

Sincerely,

Ocean Munds-Dry
Senior Counsel
