EOG's STATEMENT OF THE CASE

In these cases, Applicant seeks pooling orders creating laydown horizontal well spacing units in the Bone Spring and Wolfcamp formations underlying Sections 21 and 22, Township 20 South, Range 29 East, NMPM, Eddy County, New Mexico for the proposed **Michael K&B 2122 Fed Com Nos. 121H-124H, 201H-204H wells**. EOG opposes the issuance of pooling orders for the requested horizontal well spacing units unless the orders include the following payment provision:

Applicant grants EOG Resources the ability to sequentially elect to pay its share of costs for each proposed well. Applicant agrees to submit an AFE to EOG no sooner than 60 days before the commencement of the drilling of each well, and EOG shall have 30 days upon receipt of said AFE to elect to participate and make payment to Applicant of the estimated cost for each well.

This provision is reasonable and necessary to protect EOG from a premature demand for payment of estimated well costs.

Respectfully submitted,

HOLLAND & HART LLP
