Subject: [EXT] Against produced water

As a New Mexico resident of 26 years, I would like to express my opposition to using “produced water” in ANYTHING other than repurposing in fracking operations. Very simply, I do not trust the oil and gas industry to protect my water source from this toxic waste. Their sole motivation is profit and not the welfare of New Mexicans.

Is there anything more precious than our state’s water? It must be kept pure for our very existence.

Sincerely,

Robert J. Baroody
