### **STATEMENT OF CASE**

In this case, Overflow Energy, LLC (Overflow) seeks to have its application for the Rita salt water disposal (SWD) well approved. Marathon originally objected to this case based on the Fault Slip Potential (FSP) analysis submitted at the original hearing. Overflow has subsequently retained a different consulting firm to prepare a new FSP analysis. Marathon has reviewed that new FSP analysis and withdraws its objections to the application based on the FSP analysis Marathon has reviewed. Marathon understands that Overflow intends to put this case on by affidavit on December 18, 2020, and Marathon is not opposed to that approach, so long as the FSP analysis is provided to the OCD, and so long as the FSP analysis provided to OCD and evaluated by OCD for the Rita SWD is the new FSP analysis Marathon has reviewed.

### **PROCEDURAL ISSUES**

Marathon does not oppose the FSP analysis issue being presented by affidavit on December 18, 2020, so long as the FSP analysis provided to OCD and evaluated by OCD for the Rita SWD is the new FSP analysis Marathon has reviewed.

Respectfully submitted,

MODRALL, SPERLING, ROEHL, HARRIS  
& SISK, P.A.
