It is crucial that we stop all possible methane emissions, whether from leaks or deliberate venting or flaring. Methane has a far greater impact on climate disruption than other pollutants and all sources, regardless of well production amounts, MUST be eliminated. In addition, methane that is released does not get counted in our state revenues, thereby cheating taxpayers of needed state resources.

Are you interested in making a public statement at the hearing?

- No, I do not want to sign up to make a public statement
