APPLICANT'S STATEMENT OF CASE

In Case Nos. 14725 and 14726, COG seeks an order: (1) creating two non-standard 160-acre spacing/proration units and project areas comprised of the W/2 E/2 and the E/2 E/2 of Section 6, Township 19 South, Range 26 East, NMPM, Eddy County, New Mexico; (2) approving a non-standard location for COG's proposed horizontal well in each of these 160-acre project areas (the Arabian "6" Fee Well Nos. 7 and 8), and (3) pooling all mineral interests in the Glorieta-Yeso formation underlying these two 160-acre project areas.

In Case Nos. 14703, 14704, 14705 and 14698, Cimarex Energy Company ("Cimarex") seeks an order pooling all mineral interests to form four 40-acre oil spacing and proration units for the development of the Glorieta-Yeso formation underlying the SE/4 of said Section 6. In contrast to COG's two horizontal wells, Cimarex proposes to drill at least four vertical wells in each quarter-quarter of the SE/4 of Section 6 at what are described as "unorthodox" well locations.

The Division is asked to determine which of these competing development plans affecting the SE/4 of Section 6 are in the best interests of the affected working interest owners, in the best interests of conservation and in the best interests of the prevention of waste.

APPLICANT'S PROPOSED EVIDENCE

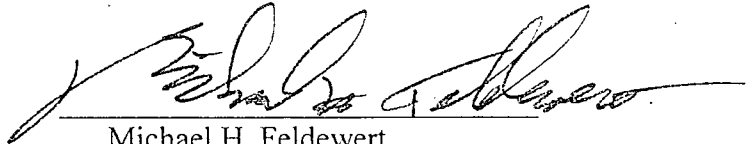

WITNESS Name and Expertise	ESTIMATED TIME	EXBHIBITS
Stuart Dirks – Landman	Approx. 30	Approx. 4
Raymond Reyes – Geologist	Approx. 20	Approx. 6
T.J. Midkiff – Engineer	Approx. 30	Approx. 10

PROCEDURAL MATTERS

The parties have requested that the above referenced cases be consolidated for hearing.

Respectfully submitted,
